

Welcome to the future: 'The Odd Pro' launches today

Membership service to offer access to professional, networking, social and education opportunities at an affordable monthly rate

PROFESSIONAL COUSIN SERVICE

Las Vegas, Nevada May 1, 2023 ([Issuewire.com](https://www.issuewire.com)) - Today, The Odd Pro, the world's first professional cousin service, is officially pleased to launch its subscription-based networking, education, and service platform.

The Odd Pro now accepts new members at \$25 monthly at theoddpro.com.

In an increasingly digital world, making old-school connections is becoming more challenging than ever. The Odd Pro founder and CEO Emery M. McClendon, Esq. said he believes the platform is an elegant solution to that growing difficulty.

"The Odd Pro will offer members captivating and thought-provoking entertainment, savings and discounts, live mentoring events, networking opportunities, correspondence services, life tools and resources, and more," McClendon said. "The Odd Pro's vision is to empower our members to unlock their full potential, regardless of where they come from or their goals."

McClendon said he reached into his background as a lawyer, entrepreneur, and inventor to develop a platform that incorporates that vision and provides substantial value for users.

"Membership in The Odd Pro offers access to savings and discounts worth over \$1,000's in travel, dining, and luxury retail as members gain entry to a network of like-minded, accomplished individuals, opening new worlds of possibilities through live mentoring events and networking opportunities," he said. "At the end of the day, we empower The Odd Pro's experts to curate resources that help members achieve their goals and live fulfilling lives."

"I wanted to create a framework that helps level the playing field by providing tools and resources for people to elevate their lifestyle, advance their goals, and gain new perspectives," McClendon said. "Too often, perceived limitations belie the possibilities within us all." The key to that approach was making networking a key feature of The Odd Pro's platform.

"Members also gain access to highly accomplished individuals, opening new worlds of possibilities through mentors and networking," McClendon said. "But The Odd Pro doesn't stop there. The service offers unparalleled access to life tools and a resources directory, providing members with the latest in finance, productivity, wellness, and self-care information as we source and share the finest resources available to help members achieve their goals and live their best, most fulfilled lives."

"Through a commitment to empowering members to unlock their full potential, The Odd Pro will transform lives and rewrite the story of opportunity, purpose, and prosperity for members around the globe," he said. "The service's unique perspective on reimagining human potential has the power to level the playing field and provide tools and resources for people to elevate their lifestyle, advance their goals and gain new perspectives."

Stylized as "the world's first professional cousin service," McClendon said The Odd Pro is truly a revolutionary membership package that he hopes is a game changer for those looking to achieve more by harnessing the power of connection.

"We wanted to keep it as easy as possible to share our life-changing service with the world, so we made sure joining The Odd Pro is as simple and affordable as possible, with membership at just \$25 per month," he said. "With The Odd Pro, the impossible becomes a reality, elevating your life to previously unimaginable heights. At such a low entry point, we see mass adoption as being achievable in just a few short months."
