

Cellbunq Expands its AI Platform to Support Complex Ultimate Beneficial Ownership (UBO) Structures

Cellbunq Expands its AI Platform to Support Complex UBO Structures

Stockholm, Sweden May 31, 2023 ([Issuewire.com](https://www.issuewire.com)) - Cellbunq, a leading global Know Your Business (KYB) provider, has announced the expansion of its artificial intelligence (AI) platform to support complex Ultimate Beneficial Ownership (UBO) structures. This expansion will enable [Cellbunq](https://www.cellbunq.com) to provide businesses with comprehensive data on UBO structures that are typically difficult to obtain.

The new enhancement to Cellbunq's AI platform will allow businesses and individuals to easily onboard themselves and their partners while choosing their desired services. Furthermore, Cellbunq provides worldwide coverage, allowing companies to onboard regardless of location without needing physical presence.

With this expansion, businesses seeking clarity on ownership structures can now access clear and understandable graphs showing the ultimate beneficial owners of any entity. The new functionality covers businesses owned by entities and individuals, providing a holistic view of UBO structures. The AI platform's expanded capabilities allow for a more granular analysis of complex ownership structures, enabling businesses to identify potential red flags quickly.

"Our goal is to make it as easy as possible for businesses to understand who they are dealing with," said

a Cellbunq spokesperson. "With this expansion, we can provide comprehensive data on complex UBO structures that are typically hard to get from any country. This will enable businesses to make more informed decisions and comply with regulatory requirements."

The expansion of Cellbunq's AI platform to support complex UBO structures is a game-changer for businesses looking to gain better insights into their customers' ownership structures. With this new feature, companies can expect to access deep-dive analytics and reporting capabilities that were previously not available. By leveraging Cellbunq's platform, businesses can comply with regulatory requirements and make more informed decisions.

Cellbunq's commitment to innovation and customer satisfaction has made it a trusted partner to businesses worldwide. The company's AI platform expansion is the latest in a series of updates to provide businesses with the most comprehensive and reliable KYB services.

"Cellbunq's AI platform continues to evolve, providing businesses with the most comprehensive and reliable KYB services. We are excited about this expansion and believe it will significantly impact the world of business," said the spokesperson.

Finally, Cellbunq's artificial intelligence-driven KYB platform is an innovative solution that provides businesses with comprehensive data on complex UBO structures. By leveraging this technology, companies can make more informed decisions while complying with regulatory requirements. With its global coverage and commitment to customer satisfaction, Cellbunq is a trusted partner to businesses worldwide.
