New York City, New York May 10, 2023 ([IssueWire.com](https://www.issuewire.com)) - CopyCoached Unveils Revolutionary AI Copywriting Software for Small Businesses

The marketing tech sphere is poised for disruption with the introduction of CopyCoached, the latest innovation in AI copywriting software. Developed with marketing frameworks from industry stalwarts like

Russell Brunson, Dan Kennedy, Alex Hormozi, and more, CopyCoached offers a user-friendly interface that simplifies the process of creating marketing copy.

The driving vision behind CopyCoached is to equip small business owners with a tool that accelerates their marketing efforts. The platform has been designed with an emphasis on user-friendliness, eliminating the need for users to become adept at engineering prompts or to familiarize themselves with new technology.

Copy Coach Ed, the AI powering CopyCoached, has been meticulously trained on established marketing frameworks such as Russell Brunson's Perfect Webinar, Dan Kennedy's Ultimate Sales Letter, Alex Hormozi's Grand Slam, and Joel Erway's Power Offer. This enables it to generate persuasive copy for a variety of applications including landing pages, blogs, email nurture sequences, and even Facebook and Google ads.

Joel Erway, of The Webinar Agency, whose frameworks are part of the software, shared his experience: "I used CopyCoached to help me rewrite my own Power Offer for my Power Offer Workshop, and the output was so good!"

The software has already received numerous positive reviews from its users. Business owner Scott Perry reported a significant return on his investment, "Within 24 hours, I probably got a 10x return, thanks to the time saved creating content and lead magnets. It's a tool I use daily and is undoubtedly worth the investment."

Laurel Portie, the owner of Ad Coaching For 7, has also praised the software: "I [?] this software. I was having issues getting ChatGPT to output what I needed. CopyCoached solved my problem in an easy-to-use platform that not only writes my favorite ad scripts but also provides direct feedback on implementation. A must for any digital business owner."

Interestingly, the software grew out of Portie's group, and many of her strategies and frameworks are now integral parts of CopyCoached, providing additional value to users.

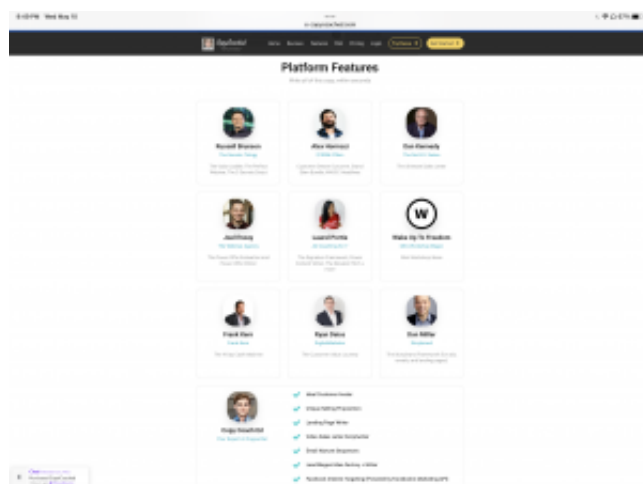

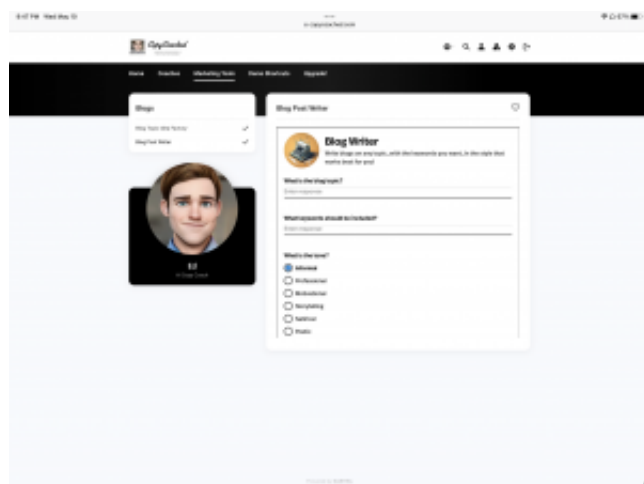

In contrast to other tools like Jasper and ChatGPT, which rely on monthly subscriptions, CopyCoached offers a lifetime unlimited plan for a one-time payment of \$97. This pricing model is designed to be accessible and cost-effective for small businesses aiming to amplify their marketing efforts.

CopyCoached, currently in its Beta stage, is committed to continual evolution. New tools and frameworks are added weekly at no additional cost, underscoring the company's mission to deliver unparalleled value to its users.
