Hyderabad, Telangana May 11, 2023 (Issuewire.com) - E-Infra, a renowned real estate developer in Hyderabad, is excited to announce the launch of La Casa, a luxurious villa community located in Kongara Kalan near Adibatla just 3 km from the proposed Foxconn project. The project is strategically situated close to the under construction [Foxconn site](#), which makes it an ideal location for professionals working in the IT industry as Foxconn is going in full swing with the manufacturing unit here thus

committing to close to [1,00,000 jobs](#) in the area.

La Casa is spread across 22 acres of prime real estate and comprises 182 elegantly designed villas with world-class amenities. The villas are available in 3BHK and 4BHK configurations, ranging in size from 4,054 sq. ft. to 8,564 sq. ft. The community features a clubhouse, swimming pool, gym, children's play area, landscaped gardens, and 24/7 security.

Speaking about the launch, Mr. Snehith Reddy, Director of E-Infra, said, "We are delighted to launch La Casa, a premium villa community that offers a luxurious living experience to our customers. The project is strategically located near Adibatla, which is emerging as a preferred destination for professionals working in the IT industry. With the upcoming Foxconn site, the demand for premium housing in this area is expected to increase, and we are proud to offer La Casa as a premium choice for homebuyers."

La Casa is built to the highest standards of quality, with a focus on providing residents with a comfortable and luxurious lifestyle. The villas are equipped with modern amenities, including high-speed internet, power backup, and smart home automation systems. The project is designed to be eco-friendly, with rainwater harvesting and solar panels.

La Casa is currently open for bookings, and interested customers can visit the project site to experience the luxury and comfort of the villas.
