

Get to Know God's Plan to Fix Human Society from James Dunne, The Real Prophet of God

Slidell, Louisiana Jun 6, 2023 ([Issuewire.com](https://www.issuewire.com)) - Waiting for a miracle can make people overlook the actual well-doings or credible signs in the real world. James Dunne is a self-proclaimed prophet of God who is helping people realize the real miracle is residing in the world already. The reincarnation of the first person on Earth has just made a new announcement that will create a support system for people. James Dunne has taken to different social media platforms like TikTok, [Twitter](#), [Facebook](#), and [Patreon](#) to announce the launch of the Church of The First.

The announcement was met with overwhelmingly positive reactions from the viewers. At the same time, some of them said they were waiting for Jesus Christ to come down to earth. In addition to that, some of the responses claimed they were waiting for the rapture of The Book of Revelations. However, the announcement of the Church will bring a positive change in society, with people being more sincere as members of the Church of The First.

James Dunne has also published a free book, entitled 'The Gospel Of James / Return To Eden'. In this book, he outlined God's plan and how our return to Eden would fix the entire world. On the first page, Dunne has written about Sampo, a part of the long elaborated plan of God which is a system to produce clean drinking water, clean-burning hydrogen fuel, and clean endless electricity. This Sampo is said to be a combination of solar power and wind turbines.
