

Innovative Online Therapy Solutions Unveiled with 'The Odd Pro' Launch

As the need for personal therapy grows, new subscription-based start-up looks to simplify and expand online counseling options as part of their unique service

Las Vegas, Nevada May 15, 2023 (Issuewire.com) - The complexities of the modern world have driven more people than ever to seek therapy.

But even as the world wide web has created more accessible access to mental health services connecting providers and those in need has been an ongoing concern in the field.

But now, thanks to one of the most innovative new subscription-based online services, connecting with one of the most in-demand mental health providers is easier than ever, as The Odd Pro has enlisted the services of Dr. Ish Major to offer various services on the platform.

Having recently launched the self-described "professional cousin service," The Odd Pro is proud to bring this highly demanded service to its platform.

"We are thrilled to partner with Dr. Ish Major and offer our members a unique opportunity to explore their emotions and grow as individuals," said Emery M. McClendon, Esq., The Odd Pro president and CEO. "Our mission has always been to provide members with the most exceptional and life-changing experiences. Our partnership with Dr. Ish is the perfect embodiment of this commitment."

Through live weekly therapy sessions, members can engage in meaningful discussions, learn effective communication skills, and get expert guidance on navigating personal and professional relationships, he said.

"At this critical time, we must work together to ensure everyone has access to the mental health support they need," McClendon said. "By doing so, we can help to alleviate the mental health crisis and ensure that individuals can lead happy and healthy lives."

And he said Major was a perfect choice to bring mental health services to The Odd Pro platform.

"Dr. Ish has spent over 15 years helping men and women decode the male psyche and navigate the dating world," McClendon said. "He is recognized by the International Association of Healthcare Professionals as one of the World's Leading Physicians and has been named to the prestigious list of America's Top Psychiatrists for the last three years."

"Members of The Odd Pro will have the unique opportunity to participate in live therapy sessions with Dr. Ish. They can receive personalized guidance on issues ranging from love and relationships to mental health and personal growth. His approach to therapy is rooted in empowerment, helping clients get clear and vocal about their needs and wants so that they can find true happiness."

While new, including the service to the platform, reflects The Odd Pro's overall mission.

"We believe that personal growth and development go hand-in-hand with networking and entertainment, and this partnership is a testament to that belief," McClendon said. "The weekly therapy sessions with Dr. Ish are just one of the many benefits members of The Odd Pro can enjoy."

For \$25 a month, members can access over \$1000 in monthly savings and discounts on travel, dining, luxury retail and more.

They can also participate in weekly live events, including game show nights and group therapy sessions.

Major also sees an opportunity with the partnership and said he is thrilled to be a part of The Odd Pro.

"I believe that therapy should be accessible and empowering, and I look forward to helping members of The Odd Pro navigate the complexities of relationships and personal growth," he said.
