

Leawo Updated the Prof. Media for Mac to 13.0.0 Version Adding DVD Modules and Supporting Latest Phone Devices

Leawo has launched the Prof. Media for Mac 13.0.0 recently, which adds DVD to Blu-ray Converter and DVD Cinavia Removal modules, supports iPhone14 series and Samsung S22/S23 series as output in Converter/Ripper modules, and updates more functions.

Prof. Media 13

Shenzhen, Guangdong May 26, 2023 ([Issuewire.com](https://www.issuewire.com)) - Leawo Prof. Media for Mac has a strong competitiveness in this market and it has got lots of positive reviews from users. In response to the demands of Mac users, Leawo updates this powerful software to 13.0.0 version. The obvious difference is that it upgrades from 14-in-1 media converter combo to 16-in-1 suite, including newly added DVD to

Blu-ray Converter and DVD Cinavia Removal modules. Also, the built-in Converter/Ripper modules support the latest phone devices like iPhone 14 series and Samsung S22/S23 series for output. The upgrade points will be listed as followings:

1. Added [DVD to Blu-ray Converter](#) module.

- It can directly burn multiple DVDs to one BD. Also, this module enables users to convert all/selected titles from various DVDs to BD-25/BD-50disc, folder, and ISO image files with original quality and provides internal disc menu editor to preset/personalize disc menu. Besides, the output Blu-ray retains all subtitles and audio tracks.

2. Added [DVD Cinavia Removal](#) module.

- This module can remove Cinavia protection upon DVD movies and other protections (like CSS, APS, ARccOS, etc.) from Cinavia watermarked DVD at 6x higher speed. In addition, it supports copying any Cinavia protected DVD/folder/ISO files to protection-free DVD content as backup, and this output can be played smoothly on DVD players like Nero, Cyberlink, X-box, etc.

3. Supported the latest phone devices for Converter & Ripper output

- These output devices include iPhone 14, iPhone 14 Plus/Pro/Pro Max, Samsung Galaxy S22/S22 Plus/Ultra, and Samsung Galaxy S23/S23 Plus/Ultra.

4. Added more built-in templates in menu of Creator module.

5. Supported more Pioneer 4K optical drives.

6. The output MP4 format supported AC3 (audio encode).

7. Fixed other known issues.

The main updates of Leawo Prof. Media for Mac 13.0.0 are as above. Actually, as versatile software, Leawo Prof. Media for Mac integrates 10+ media converter apps. For instance: [HD Video Converter](#), 4K Blu-ray/DVD Ripper, Blu-ray Cinavia Removal, [Blu-ray Recorder Copy](#), Blu-ray/DVD Creator, Photo Slideshow Maker, Photo Slideshow Burner etc.
