

Lisa C. Bishop, OD, an Optometrist with Southlake Eyes Now

Get to know Optometrist Dr. Lisa C. Bishop, who serves patients in Texas.

New York City, New York May 3, 2023 ([IssueWire.com](https://www.issuewire.com)) - Dr. Bishop is currently practicing with Southlake Eyes Now in Texas. Good eyecare is vital to maintaining your health and quality of life. Southlake Eyes Now incredible team is comprised of experienced, dedicated optometrists who have spent years perfecting their craft, and who have travelled worldwide to help as many people as possible.

Vision is a gift that they can help you protect. With comprehensive eye exams, they can gain insight into the health of your eyes and detect possible eye diseases or other vision-impairing conditions like glaucoma, age-related macular degeneration, and cataracts.

Optometry is a health care profession that involves examining the eyes and applicable visual systems for defects or abnormalities, as well as diagnosing and managing eye disease. Optometrists are healthcare professionals who provide primary eye care through comprehensive eye examinations to detect and treat various visual abnormalities and eye diseases. Being a regulated profession, an optometrist's scope of practice may differ depending on the location. Thus, disorders or diseases detected outside the treatment scope of optometry (i.e. those requiring certain surgical interventions) are referred out to relevant medical professionals for proper care, more commonly to ophthalmologists who are physicians that specialize in the tertiary medical and surgical care of the eye. Optometrists typically work closely together with other eye care professionals, such as ophthalmologists and opticians, to deliver quality and efficient eye care to the general public.
