

Magicycle Drew a lot of Attention on the First Day of the Electrify Expo

The Long Beach Expo was held to embrace a wide selection of ebike brands. The two Magicycle booths were an impressive sight, with the latest electric models - the first ebike suv in the US.

Ontario, California May 21, 2023 ([Issuewire.com](https://www.issuewire.com)) - The first day of Electrify Expo 2023 in Long Beach was over. Magicycle, a thriving ebike brand, has drawn plenty of attention. Showing a wide range of stylish and functional ebike models, Magicycle quickly gained popularity among many visitors. From daily commuters to occasional ebike riders, the range of products offered by Magicycle was trusted to meet the needs of any customer.

The Long Beach Expo was held to embrace a wide selection of ebike brands. The two Magicycle booths were an impressive sight, with the latest electric models - the first ebike suv in the US. Customers could also find educational materials about Magicycle's products and test-ride the bikes at the booths. Magicycle ebike experts were available to answer any questions and help customers make an informed purchase decision.

At the same time, the company's presence was felt beyond the exhibition hall. The publicity campaign for the event was far-reaching and extensive. Posters of XYZ products could be seen in train stations, supermarkets, and parks. The campaign was well timed and adapted to the needs of riders in major cities.

The line of [Magiccycle ebikes](#) also earned positive reviews. Visitors praised the stylish ergonomic designs, comfortable bike frames and handlebars, powerful motors, and most importantly, the 52V large batteries. They were also impressed by the numerous convenient features such as responsive hydraulic disc brakes, 52V power system, and the cruise control of the bikes.

Apparently, the first day of the expo was a success for Magiccycle, with visitors leaving the expo impressed and eager to own one of the products. The next 2 days, Magiccycle will still be at the same booths with representatives and those excellent ebikes. We are convinced to see a growing popularity and brand awareness of Magiccycle.

For those who still don't know where Magiccycle's booths are, here is the info:
