# Micro BlogIN: The Ultimate Twitter Alternative Launched by Trilok Singh

Web Version of a New Microblogging Platform Named Micro BlogIN Launched: CEO, Trilok Singh.

Madhepura, Bihar May 19, 2023 (Issuewire.com**)** - Social Media or New Media has become an integral part of our lives, and Twitter is one of the most popular microblogging platforms worldwide. However, CEO Trilok Singh has now launched India's first alternative of Twitter named Micro BlogIN after the success journey of Youth Darpan, IASmind and Post A2Z social media platforms and Apps, which promises to revolutionize the way we communicate online. Micro BlogIN's interface is available in English, Spanish, French, German, Italian, Portuguese, and Japanese languages.

It Developed on pure native php code, without the use of any frameworks, It used the most popular technologies such as PHP, Bootstrap, jQuery, VueJS, CSS, HTML, and others. Thus, it is based on the foundation of well organized and well structured source code. It offers a Short Tweet and Retweet system, which allows users to share their thoughts and ideas in just a few words (Maximum post character length on Micro BlogIN- 600 Words), The CEO, Trilok Singh, said in a statement.

The microblogging platform also offers Polls, Story, Chat, Like, Upload images & videos, Import GIFs, News feed, monetization, ability to add your city in profile settings and Notifications system, making it a one-stop-platform for all your social media needs. It can speak your languages and users can change their theme colors and users can follow other users and be followed back, just like Twitter. Some of the

Thoughtful and convenient interface ensures an optimal user experience, making it accessible and easy to use for everyone. Publishing system enables high-quality content posting in various formats, continuously expanding with each update.

"I believe that Social Media or New Media should be a tool for connection and collaboration, rather than a source of negativity and division": Micro BlogIN CEO, Trilok Singh.

Despite all of this, Micro BlogIn offers a Hashtags system to help you find relevant content and connect with like-minded people. Tweet sharing is made easy with the platform's Premium Account, which allows you to embed posts and even run ads. Micro BlogIN also has a Voice recorder feature, which enables users to record and post audio messages. The Tweet repost feature allows you to share other people's tweets with your followers, and the User Block/Unblock function ensures that you have control over who can interact with you.

The platform also offers Bookmarks, which allows you to save posts for later viewing. The User profile feature allows you to customize your profile and set Profile privacy and Post privacy settings. You can also Follow/Unfollow other users and use Emoji to express your emotions. The platform also allows users to upload images and videos in high quality for free. The chat feature allows users to connect with their followers in real-time. Micro BlogIN is a game-changer in the world of social media, offering a fresh and innovative approach to microblogging. It provides a user-friendly interface with a series of features that cater to all your social media needs.

With Micro BlogIN, you can connect with people, share your thoughts and ideas, and stay up-to-date with the latest news and trends. It is an Ultimate Hypertext Preprocessor (PHP) based Platform that supports a 'Follow and Tweet System' like world's leading social networking sites (SNSs). It is a place for you to share the things and ideas that are important to you and your community that will strengthen Democracy. You own all of the Tweet and information that you tweeted, and you can control how it is shared through your Account Privacy and Tweet settings.

Despite this, Micro BlogIN offers a new and exciting alternative to Twitter, offering a range of features that make it stand out from the crowd. CEO Trilok Singh has created a platform that is user-friendly, innovative, and perfect for anyone looking to connect with others and share their ideas. It is definitely worth checking out for those looking for a fresh take on microblogging. So, why not give Micro BlogIN a try and see for yourself how it can change the way you communicate online?
