

Modern Logistics Appoints New CEO Cristiano Koga

New Positions

New York City, New York May 14, 2023 ([Issuewire.com](https://www.issuewire.com)) - Modern Logistics Appoints New CEO

Nominated Mario Fernandes da Costa to CTO/ CFO

Modern Logistics, the São Paulo-based logistics company, is pleased to announce the appointment of Cristiano Koga as its new CEO. Mr. Koga, a former Vice President of FedEx South America, brings to Modern Logistics 23 years of management, international trade, logistics and shipping experience in organizations across the Americas and Europe. Modern Logistics is proud to welcome this skilled executive to lead the company through its next phase of growth. Mr. Koga will assume the CEO position immediately.

"I feel privileged and honored to be elected CEO by Modern Logistics' Board of Directors and to be granted the opportunity to lead a highly talented team of outstanding professionals during an exciting time for the company. I look forward to contributing to drive the future success of the business and responding to the ever-changing needs of the supply

chain industry by offering unparalleled value to our customers”, stated Mr. Koga.

Koga succeeds CFO Mario Fernandes who successfully negotiated leases for new and highly efficient Boeing 737-800 BCFs to be added to Modern’s fleet through next year. “I am pleased to have spearheaded the transformation of Modern Logistics by bringing new innovation and greater efficiencies to the company,” stated Mr. Fernandes. Indeed, the aircraft negotiations and acquisitions under Fernandes’ leadership firmly place Modern Logistics in a greater competitive position within the industry amid a challenging economic operating environment. Mr. Fernandes will continue his role as CFO and will also take on the position of CTO (Chief Transformation Officer) as well as joining the company’s Board of Directors in New York. Also Mr. Fernandes will be participated Conference in Panama next week.

Modern Logistics, founded in 2012, is a pioneer in the development of a one-stop-shop model using air freighters to provide logistics services that are materially hastening supply chains across Brazil. In addition to its fleet of Boeing 737s, the company has more than 6,000 vehicles from approved partners for ground operations. Through its seven distribution centers and cargo terminals, goods are efficiently directed to clients via the company’s air and road network from its Viracopos operations base in Campinas, SP.
