

Nonprofit Software Solution Built on Microsoft Dynamics 365

Chicago, Illinois May 8, 2023 ([IssueWire.com](https://www.IssueWire.com)) - Dynamics CRM Consulting is proud to announce the launch of our new [Nonprofit CRM](#) built on MS Dynamics. This CRM suite is designed to help nonprofit organizations of all sizes streamline their donor management, fundraising, and volunteer coordination processes.

The Solution provides a powerful set of modules to manage and track donor interactions, fundraising campaigns, volunteer management, grant management and event coordination. The system offers a comprehensive view of donor activity, including donation history, engagement level, and communication preferences, to help organizations tailor their outreach efforts and build lasting relationships with their supporters.

Having built on the Microsoft Cloud platform delivers advanced security, reliability, and scalability. Nonprofit organizations can rest assured that their donor data is protected and can grow with their needs.

We believe that every nonprofit organization should have access to the tools they need to succeed. That's why we are committed to making the Nonprofit CRM for Dynamics accessible and affordable for organizations of all sizes, so they can focus on what matters most – making a positive impact in their communities.
