

ProHance Collaborates with SHRM to Launch Research Study on 'Workforce Management for a Hybrid Workforce'

Hyderabad, Telangana May 22, 2023 ([Issuewire.com](https://www.issuewire.com)) - [ProHance](https://www.prohance.com), a prominent workplace analytics and operations enablement platform, proudly announces its association with SHRM India to initiate a research study titled "Workforce Management for a Hybrid Workforce." The announcement took place during the renowned SHRM Tech Conference & Expo 2023 (#SHRMTECH23) held in Hyderabad. This influential event brought together HR professionals, technology experts, and business leaders to explore the latest WorkTech trends and advance their people practices.

During #SHRMTECH23, ProHance actively engaged with the HR and technology community by showcasing its comprehensive suite of Workforce Management solutions. These solutions are thoughtfully designed to empower organizations in optimizing their workforce and maximizing productivity.

The highlight of the event was the joint announcement of the groundbreaking research study, "Workforce Management for a Hybrid Workforce," in collaboration with ProHance and SHRM India. The study, currently under development, will offer valuable insights into the challenges and perspectives surrounding effective workplace analytics solutions that cater to the needs of a hybrid workforce. The announcement was made jointly by Arvind Sagar, Head of Professional Services at ProHance, and Achal Khanna, CEO of SHRM India, APAC & MENA. This study promises to be an eye-opener for industry professionals seeking to navigate this critical topic.

"We are excited about our collaboration with SHRM India and the launch of our research study on

'Workforce Management for a Hybrid Workforce,'" said Arvind Sagar, Head of Professional Services at ProHance. "This study aims to provide organizations with valuable insights into optimizing their workforce in the evolving digital landscape. We look forward to shedding light on this crucial aspect of workplace analytics."
