

Readers of "All SEO Secrets" and "The Youtube Marketing Handbook" Discover Author Warren H. Lau's Secret Talent

Hong Kong, Hong Kong S.A.R. May 14, 2023 ([Issuewire.com](https://www.issuewire.com)) - Fans of author Warren H. Lau's popular books, "All SEO Secrets" and "The Youtube Marketing Handbook," may be surprised to learn that the author is not only an expert on digital marketing, but he's also quite the handsome model.

Warren recently revealed that he was once approached by the manager of a skincare brand while

walking down the street in Lang Kwai Fang, Hong Kong. The manager was taken aback by Lau's striking good looks and invited him to model for the brand's social media accounts. In exchange, Lau was given two full sets of skincare products worth more than \$2000 USD.

"I never thought of myself as a model, but I guess you never know what opportunities will come your way," said Lau in a recent press statement. "I was happy to help out the skincare brand and get some great products in return."

Warren's fans were surprised to learn of his hidden talent, but many were quick to note that his good looks are perhaps not entirely unexpected given his success in the digital marketing world. "It's not surprising that Warren has hidden talents," said one reader. "He's clearly a very talented guy, and it's great to see that he's not afraid to try new things."

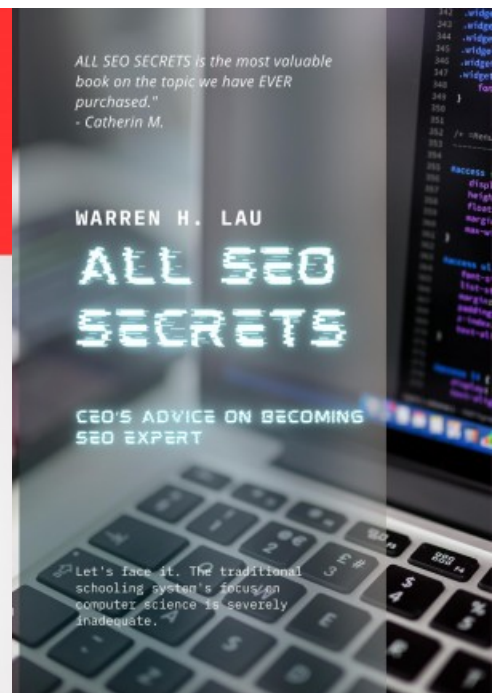

Despite his newfound interest as a model, Warren remains committed to his work as a digital marketing expert and author. He is currently working on his next book, which he promises will contain even more SEO and Youtube marketing secrets.

Lau has recently changed his facebook profile photo to avoid unwanted attention from female fans.

Warren's "Youtube Marketing Handbook" and "All SEO Secrets" are now available on Barnes and Noble.
