

UnicMinds has launched free coding certificate exams for kids

Bengaluru, Karnataka May 20, 2023 ([IssueWire.com](https://www.issuewire.com)) - UnicMinds is a leading online coding classes provider for kids across the world. It provides more than 20 online courses for kids with an adaptive curriculum designed by some of the best Ivy League alumni. UnicMinds has launched short-duration four-week summer courses for kids in Space Programming, Python, Basic Scratch, Java, Ethical Hacking, and Computer Mathematics.

In continuation with our plans announced earlier this year, we have successfully launched [free coding certificate tests for kids](#). Children can take several tests to self-assess themselves in a range of programming languages of their choice. Certificates will be awarded instantly to children who score more than seventy percent on these tests. This is a new platform launched by UnicMinds catering only to the testing needs of students. Sai Balivada, the Co-Founder at UnicMinds, has also announced that they're planning to launch additional new courses specifically this summer in areas such as basic statistics, excel basics, and robotics for kids.
