

# United Recovery Project Responds to Latest Advances in Treating Alcohol Addiction with AI and Genetics

**Colchester, Essex May 5, 2023** ([Issuewire.com](https://www.issuewire.com)) - [United Recovery Project](https://www.united-clinics.co.uk), a leading provider of addiction treatment services, is responding to the latest breakthroughs in the use of artificial intelligence (AI) and genetics to help doctors treat alcohol addiction. A recent article in VCU Health highlighted the potential of these cutting-edge technologies to revolutionize addiction treatment, and United Recovery Project is excited about the possibilities that they offer.

According to Tom Hill, addiction specialist at United Recovery Project, "The use of AI and genetics to treat alcohol addiction is a significant step forward in the field of addiction treatment. These technologies have the potential to help doctors tailor treatments to the unique needs of individual patients, which can greatly improve their chances of success."

Hill continued, "At United Recovery Project, we are committed to staying at the forefront of addiction treatment, and we are excited to see the progress being made in the use of AI and genetics. We look forward to incorporating these cutting-edge technologies into our treatment protocols, which will allow us to better serve our patients and help them achieve lasting recovery."

As an organization that is dedicated to providing high-quality addiction treatment services, United Recovery Project is excited about the possibilities that AI and genetics offer in the fight against alcohol addiction. With a commitment to staying up-to-date with the latest advances in addiction treatment, United Recovery Project is poised to continue leading the way in helping those struggling with addiction achieve lasting recovery.

About United Recovery Project: United Recovery Project is a leading provider of addiction treatment services in the UK. With a team of experienced addiction specialists and a commitment to providing evidence-based treatment, United Recovery Project is dedicated to helping individuals overcome addiction and achieve lasting recovery.
