

U.S. Senate Candidate Khaled Salem Urges State of Israel to Intensify Defenses Against Hamas

The candidate from New York supports any Israeli efforts that protect and secure the State of Israel and its Israeli citizens from originators of aggressive attacks.

New York City, New York May 4, 2023 ([Issuewire.com](https://www.issuewire.com)) - Khaled Salem, a 2024 candidate for U.S. Senate in New York, today announced his strong support for Israel's justified retaliation in response to Hamas. The Egyptian-born Salem is a champion of Israel and has been consistent in efforts to add his voice to those who value the security of the State of Israel – not only to protect the country itself, but also

to underscore its strategic geopolitical location that serves to temper Iran, Turkey, and Russia from advancing into NATO territory.

These brutal governments back Hamas and Hezbollah behind the scenes with long-range missiles and other weapons. By longstanding treaty, NATO is obligated to protect Israel should it be attacked by the governments of these extremist countries. If Israel were to fall, the Mediterranean would be the conduit that hostile foreign governments would use to pivot into taking over Europe and its resources, with huge consequences for the rest of the world.

Salem explained, “I urge the United Nations and all governments to go as far as dividing the Arab Gulf states into ‘two big states.’ Their inherent loyalty should be to the United States of America and the State of Israel.”

The Senate candidate is quite serious about peace in the Middle East, as he has had a 360-degree view of Israeli-Arab relations. Salem has seen first-hand the duplicity, greed and force that has carried over from original tribes that were renamed “Arab” by then Britain and ever since have fought among themselves, but especially against Israel and its democratic philosophy.

“To this end, I say directly to the State of Israel; double down on protecting Israel and put all efforts into new and harsh responses to any Arab country choosing to do business or cooperate in agreeing to deals with Iran.,” added Salem.

Salem has a clear view of Middle East issues and is dedicated to informing Americans and the world at large of terrorist action against the State of Israel.
