With over 65,000 customers worldwide, Jira Software has become the go-to solution for teams looking to streamline their work processes, increase productivity, and achieve project success.

Jira Software is an agile [project management tool that helps teams plan](#), track, and release high-quality software. The software is designed to help teams work smarter, not harder, by providing them with everything they need to get the job done in one place. From agile boards and reports to customizable workflows and integrations, Jira Software is a powerful tool that adapts to the needs of any team.

"Jira Software is the ultimate task management software in the project management industry," said Scott Farquhar, co-founder and co-CEO of Atlassian. "With Jira Software, teams can work smarter, not harder, and achieve project success. We are proud to have over 65,000 customers worldwide who trust Jira Software to help them get the job done."

Jira Software is used by a wide range of teams, including software development teams, marketing teams, HR teams, and more. The software is highly customizable, which allows teams to tailor it to their specific needs. With features like customizable workflows, boards, and reports, Jira Software helps teams [stay organized and on track](#).

Some of the key features of Jira Software include:

Agile boards: Jira Software provides teams with agile boards that allow them to visualize their work, prioritize tasks, and stay on top of their to-do lists.

Customizable workflows: With Jira Software, teams can create custom workflows that fit their specific needs. This helps teams stay organized and ensures that everyone is on the same page.

Integrations: Jira Software integrates with a wide range of other tools, including Slack, GitHub, and Confluence. This makes it easy for teams to work together and stay connected.

Reporting: Jira Software provides teams with powerful reporting capabilities that allow them to track progress, identify bottlenecks, and make data-driven decisions.

Jira Software is available in both cloud and server versions, making it accessible to teams of all sizes. With its powerful features and user-friendly interface, Jira Software is the ultimate task management software in the project management industry.
