

22 Oceans Enchant Listeners with Two Dreamy New Songs

The talented sister-duo, 22 Oceans has released two dreamy new anthems, 'Untold' and 'Drifting', presenting listeners with an unforgettable listening experience.

Liverpool, Jun 12, 2023 ([Issuewire.com](https://www.issuewire.com)) - Bringing an eclectic fusion of angelic vocal harmonies against a backdrop of scintillating layers of melody, **22 Oceans** has released two immersive new songs, '**Untold**' and '**Drifting**', taking listeners into a dreamy realm of melliflence. Each song casts upon its audience a lasting enchantment as it takes them into a complex depth of ambient and shoegaze fullness, augmented by the softer vocal thread that pierces deep into their psyche. Though

familiar in style, each song brings with it a unique twist of the artists' creative genius that gives it a distinct flavor of its own.

'Untold' delves deep into the arena of love as it speaks of taking the perfect romantic drive with one's soulmate. The tranquility of the vocal harmonies against the delectable and hypnotic synth layers creates a "romantic electronica" soundscape that takes listeners along on their dreamy journey. **'Drifting'** once again brings to light the artists' innate flair for storytelling as it deals with moving on from someone not right for you with lines such as "I grew stronger, I grew brave" and "I grew up you stayed the same, I moved on from playing games" and weaving a sense of confidence and optimism in the congenial musical fabric of hearty rhythms and emotive synth maneuvers.

Inspired by artists like This Mortal Coil, Massive Attack, Electric Youth, Beach House, SYML, OMD, Lorde, and Cocteau Twins, the collaborative venture by the 18-year-old twin sisters Carys & Keeley Hughes and producer Mike Guy, **22 Oceans** has dipped its feet into a wide array of genres including dream-pop, synth-wave, folktronica, and synthpop, creating music that transcends the confines of orthodox musicality and brings in a new wave of rejuvenating musicality. **'Untold'** and **'Drifting'**, along with their other masterpieces, like 'Home' and their cover of Depeche Mode's classic 'Puppets', are available for streaming on [Spotify](#), [SoundCloud](#), and [Apple Music](#). Follow the artists on [Twitter](#), [Instagram](#), and [Facebook](#), and subscribe to their [YouTube](#) channel to never miss an update.
