They clean teeth, correct bite issues, perform surgeries and extractions, and perform other duties to ensure that the teeth and mouth are healthy.

As a general dentist, Dr. Taxin incorporates most dental procedures into his practice and rarely refers patients to other providers. He loves placing and restoring implants. He treats children, performs root canals, does cosmetic smile makeovers, full mouth rehabilitations, laser treatments, and more. His wealth of knowledge in dentistry is very vast. He even incorporates artificial intelligence into his practice and digital dentistry.
