

Cebuana-Filipino American, Granddaughter of Cebu Governor, Selected for Prestigious Congress of Future Medical Leaders

Isabella Sofia Aznar-Beane of Gilbert, Arizona, to Join Nation's Top High School Students in Inspiring Medical Career Program

National Academy
of Future Physicians
and Medical Scientists

Gilbert, Arizona Jun 19, 2023 ([Issuewire.com](https://www.issuewire.com)) - Isabella Sofia "Izzy" Aznar-Beane, an accomplished Junior at Campo Verde High School in Gilbert, Arizona, and the distinguished granddaughter of Cebu Governor Gwendolyn Garcia, has been chosen as a delegate to the highly anticipated Congress of Future Medical Leaders. This esteemed event is scheduled to take place from June 21-23, 2023, just outside Boston, on the prestigious University of Massachusetts Lowell campus.

The Congress of Future Medical Leaders is an exclusive program specifically designed to recognize, inspire, motivate, and guide exceptional high school students who aspire to pursue careers in medicine and medical research. It serves as a platform to nurture the brightest minds across the nation and provide them with the resources, personalized plans, and support necessary to transform their dreams in the medical field into reality.

Isabella Sofia Aznar-Beane's selection as a delegate holds immense significance, as her nomination was endorsed by none other than Dr. Mario Capecchi, a distinguished Nobel Prize laureate in Medicine and the Science Director of the National Academy of Future Physicians and Medical Scientists. Her representation of Arizona serves as a testament to her exceptional academic achievements, leadership potential, and unwavering dedication to serving humanity through the field of medicine.

As the granddaughter of Cebu Governor Gwendolyn Garcia, Isabella Sofia Aznar-Beane carries a powerful legacy and is a shining example of the excellence and determination that runs in her family. Governor Garcia's influential leadership has inspired and influenced Isabella Sofia's pursuit for helping others. She also comes from a family with a strong medical background. Her paternal grandparents, Jocelyn and Richard Aznar-Beane, both Family Doctors in New York, received their education from Southwestern University Cebu, further fueling her passion for the medical field.

Throughout the three-day Congress, Isabella Sofia Aznar-Beane will join exceptional peers from all corners of the country to engage in captivating discussions with Nobel Laureates and National Medal of Science recipients, who will shed light on groundbreaking medical research. Esteemed deans from Ivy League institutions and top medical schools will provide invaluable advice on what to expect in medical education. Isabella will also have the privilege of listening to awe-inspiring stories shared by individuals whose lives have been transformed by medical miracles. Moreover, she will forge connections with other talented teenage medical science prodigies and explore the latest advances in medicine and medical technology, illuminating the future of the field.

In this crucial juncture in American history, there is an urgent need for a new generation of doctors and medical scientists who are well-prepared to navigate the rapidly evolving landscape of healthcare. Driven, intelligent, and determined students like Isabella Sofia Aznar-Beane, with her remarkable lineage and unwavering dedication, epitomize the future of our nation's medical community. It is our responsibility to provide them with the mentorship and guidance they deserve.

The National Academy of Future Physicians and Medical Scientists offers a wide range of free services and programs to support students aspiring to enter the medical field. These invaluable resources include online social networks that facilitate communication among future doctors and medical scientists, mentorship opportunities with experienced physicians and medical students, and comprehensive guidance for students and parents regarding college acceptance, financial aid, skills development, internships, and career counseling, among other essential areas.

Founded on the principle that identifying prospective medical talent at an early age is paramount, the National Academy of Future Physicians and Medical Scientists remains steadfast in its commitment to guiding students and equipping them with the necessary experiences and skills to embark on this vital career path. With headquarters in Washington, D.C., and offices in Boston, MA, the Academy operates as a nonpartisan, taxpaying institution, devoted to identifying, encouraging, and mentoring students who have dedicated their lives to the noble service of humanity as physicians and medical scientists.
