We also offer commercial and corporate cleaning and service contracts and are open to cleaning 365 days a year, including major holidays.

Here are some cleaning tips from us ([Same Day Maids](http://SameDayMaids.pro))

How does [Same Day Maids](http://SameDayMaids.pro) (offering cleaning in all 50 states) clean small area floors (kitchen/ bathrooms etc.)?

When cleaning every detail counts. We clean small areas using our hands. It's easier for us to get all

corners and see dirt easily.

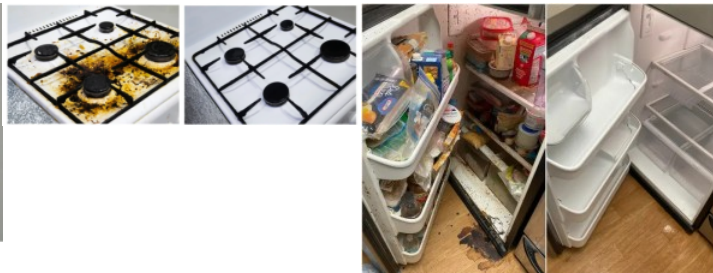

We squat down and wipe the surfaces of the floor with a slightly damp cloth (not too wet to prevent damage) The solution is made of mostly water and a little floor cleaner. After we wash the floor we vacuum.

Tip by [Same Day Maids](#) on how we remove hair on other surfaces like countertops etc.?

We always use something dry like a dry cloth, we may use a vacuum on counters, and we may use a roller stick on a sofa.

How does [Same Day Maids](#) clean if there's a lot of hair on the floor (human/pet)?

We vacuum first, then wipe the floor with a damp cloth, then we vacuum again.
