

Clifton B. Baldwin, DDS, a Dentist with Dream Smile Team

Get to know Dentist Dr. Clifton B. Baldwin, who serves patients in Spring, Texas.

New York City, New York Jun 2, 2023 ([Issuewire.com](https://www.issuewire.com)) - A highly experienced and respected dentist, Dr. Baldwin is the Owner & Operator of Dream Smile Team in Spring, Texas.

With over 35 years of experience practicing general and cosmetic dentistry, Dr. Baldwin stopped counting the number of cosmetic smile makeovers, porcelain veneers, and crowns he has provided long ago. What matters to him is providing high quality dentistry using the latest technology combined with friendly, patient-centered care. In turn, this creates happy, satisfied patients with smiles so beautiful, they speak for themselves.

“I’m blessed with a tip-top team who is passionate about providing an exceptional dental experience for our patients. We’re not about volume; we focus on providing quality dentistry and personalized care in a family-oriented environment. We strive to create a strong bond and trusting relationship with our patients. When patients allow us to make a difference in their lives by helping them achieve a beautiful smile and optimal oral health, that’s what counts for us” expresses Dr. Baldwin.

He also notes the strong link between one’s oral health and their overall health. He commented, “Our patient evaluations include a health history or update, oral cancer screening, and more. Conditions such as acid reflux, cardiovascular disease, and diabetes can often be detected during an oral exam, even before they have been diagnosed by a medical doctor.”

Since graduating with his Doctor of Dental Surgery degree from UTHealth Houston School of Dentistry in 1984, Dr. Baldwin has completed a number of advanced training courses while practicing as a dentist.

An “avid learner” dedicated to continuing education, he stays up-to-date on the latest innovations. He has extensive knowledge and unrivaled expertise in laser dentistry, soft tissue periodontics, and Invisalign (Certified Provider). As a result of his education and experience, Dr. Baldwin has rarely needed to refer his patients out.

Dentistry, also known as Dental and Oral Medicine, is a branch of medicine that consists of the study, diagnosis, prevention, and treatment of diseases, disorders, and conditions of the oral cavity. Dentists diagnose and treat dental issues and help patients develop better oral hygiene regimens. They clean teeth, correct bite issues, perform surgeries and extractions, and perform other duties to ensure that the teeth and mouth are healthy.

In his free time, Dr. Baldwin is active in the community and enjoys golfing, fitness, and custom car shows.
