The advertisement features a dark background with a large, glowing blue 'C' shape on the right. In the center, a rounded rectangle displays five stylized, colorful horses (purple, yellow, red, blue, and pink) with glowing halos. Below the horses, a blue banner contains the text 'BOOK A DEMO' and a right-pointing arrow. At the bottom left, the website 'www.Plurance.com' is displayed, and at the bottom right, a blue button contains a phone icon and the number '+91-8438882030'.

Tokyo, Japan Jun 7, 2023 (Issuewire.com) - Are you looking to enter the exciting world of NFT gaming and create a digital horse racing platform similar to Zed Run? Look no further! With the Zed Run Clone Script offered by Plurance, you can launch your very own NFT gaming marketplace in no time.

Zed Run - An Overview

Zed Run is an NFT-based horse breeding gaming ecosystem that allows users to participate in breeding racehorses and create new offspring. The platform consists of four bloodlines, namely Nakamoto, Szabo, Finney, and Buterin. Each bloodline brings unique characteristics and attributes to the horses, making them distinct and influencing their performance on the racetrack.

Zed Run Clone Script - A Ready-Made Solution

The Zed Run Clone Script is a fully customizable and extensively tested NFT marketplace script that comes integrated with all the features and plugins you need to provide users with an immersive digital horse racing experience. Developed by Plurance, [zedrun clone script](#) offers a seamless replication of the popular Zed Run platform, allowing you to tap into the growing market of NFT gaming.

Why Choose Zed Run Clone Script?

- **White Label Solution:** Plurance's Zed Run Clone Script is a ready-to-launch white-label solution. It can be customized according to your specific requirements, allowing you to establish your brand identity and make your platform stand out.
- **P2E NFT Game:** The Zed Run Clone Script is a play-to-earn NFT game that enables users to buy, sell, breed, and compete for horses in races. By leveraging blockchain and cryptocurrency technologies, this platform offers users the opportunity to earn rewards and yields, simulating the experience of owning a real-life racehorse.
- **Smart Contract Integration:** The ownership and transactions within the Zed Run Clone Script are secured through smart contracts. This ensures transparency, immutability, and trust in the platform, providing a secure environment for users to engage in horse racing and breeding activities.
- **Seamless User Experience:** The Zed Run Clone Script provides a user-friendly interface that simplifies the process of creating an account, transferring funds, and purchasing horses. With step-by-step instructions, users can easily navigate the platform and start their thrilling journey into the world of digital horse racing.

Business Benefits of Launching a Zed Run-Like Horse Game

Launching your own Zed Run-like digital horse gaming platform can bring you a range of benefits, including:

- **Fewer Capital Investment:** Compared to traditional horse racing ventures, launching a digital horse gaming platform requires significantly lower capital investment. This makes it an attractive option for entrepreneurs looking to enter the gaming industry.
- **Rapid Market Acceptance:** NFT gaming has gained immense popularity, attracting a large and growing user base. By launching a Zed Run-like platform, you can leverage the existing market acceptance of this genre and quickly establish your presence.
- **Quick User Acquisition:** With the right marketing and user acquisition strategies, you can attract a substantial number of users to your platform. The engaging nature of horse racing and the potential to earn rewards will help you acquire users at a rapid pace.
- **Massive ROI:** The NFT gaming market has seen unprecedented growth, with significant returns on investment for early adopters. By launching your own Zed Run-like platform, you position yourself to capitalize on this trend and potentially achieve substantial returns on your investment.
- **Most Preferable Business Idea:** The combination of NFTs, gaming, and blockchain technology has become an enticing business idea. By launching a Zed Run-like horse game, you tap into the market demand for unique digital experiences, giving you a competitive advantage.

How to Launch a Play-to-Earn NFT Game Like Zed Run?

There are two main approaches to launching your own Ethereum-based virtual horse racing platform like Zed Run:

- **Developing from Scratch:** If you have a development team with the necessary expertise, you can build the NFT gaming platform from scratch. This approach allows for complete customization and control over every aspect of the platform's design and functionality.
- **Using a White Label Zed Run Clone Script:** Alternatively, you can opt for a ready-to-launch white-label Zed Run Clone Script. This solution offers a pre-built framework that replicates the core features and mechanics of the Zed Run platform. You can then customize it to suit your preferences and requirements.

Ready to Launch Your Own NFT-Based Horse Racing Platform Like Zed Run?

If you're ready to embark on your NFT gaming journey and launch a digital horse racing platform like Zed Run, look no further than Plurance. As a leading token development company that offers the best-in-class [Zed Run Clone Software](#) that empowers you to create your own NFT gaming marketplace.

Plurance's Zed Run Clone Script - Features and Specialties

Our Zed Run Clone Script comes with a range of features and specialties designed to enhance the gaming experience for both users and platform owners:

Distinct Stages of Classes: Our clone script allows you to create distinct stages of classes, adding depth and progression to the gameplay. This keeps users engaged and provides a sense of achievement as they advance through different levels.

Decentralized Lending: With decentralized lending capabilities, users can leverage their NFT horse assets as collateral to secure loans. This feature adds another layer of utility and economic activity to your platform.

Custom Races: You have the flexibility to create custom races within the Zed Run Clone Script. This empowers you to offer unique and exciting racing experiences for your users, enhancing their engagement and satisfaction.

Tournaments and Scheduled Racing: Organize tournaments and schedule races within your platform. These events create a competitive environment and offer additional opportunities for users to earn rewards.

Reduced Gas Fees: they have optimized the blockchain interactions within the Zed Run Clone Script to reduce gas fees. This ensures a cost-effective and seamless user experience, encouraging higher participation.

Referral Dashboard for Stable Owners: Encourage user acquisition and retention through a referral program. Our clone script includes a referral dashboard that allows stable owners to invite others and earn rewards for successful referrals.

Hardware Wallet Support: Enable secure and convenient transactions by integrating hardware wallet support into your platform. This ensures the safety of user assets and builds trust among your user

base.

Automatic Racing and 3D Racing: Our clone script supports automatic racing, allowing users to sit back and enjoy the races without active participation. Additionally, the inclusion of 3D racing enhances the visual experience and immerses users in the thrilling world of digital horse racing.

Race Betting Option: Introduce race betting as an additional feature to engage users and add an element of risk and excitement to the gameplay. Users can wager on the outcome of races and potentially earn additional rewards.

Matic Breeding and Purchasing: We offer customization options to integrate the Matic (Polygon) blockchain network into the Zed Run Clone Script. This enables efficient breeding and purchasing processes, reducing transaction costs and enhancing user experience.

Development Cost to Launch a Blockchain NFT Game Like Zed Run

The development cost of a Zed Run-like blockchain-based gaming platform depends on various factors such as the desired features and technologies to be integrated. Plurance is a leading NFT game development company that offers cost-efficient solutions tailored to your specific requirements.
