

Death World Lives in North Texas

A Farce of Dystopian Proportions Funded by Indiegogo

Fort Worth, Texas Jun 5, 2023 ([IssueWire.com](https://www.issuewire.com)) - Little Spark Films is proud to announce the production of **DEATH WORLD**, a grindhouse gorefest starring Cory W. Ahre & Honey Sabina and directed by Joe Manco. The team launched its 40-day Indiegogo Campaign on June 5th.

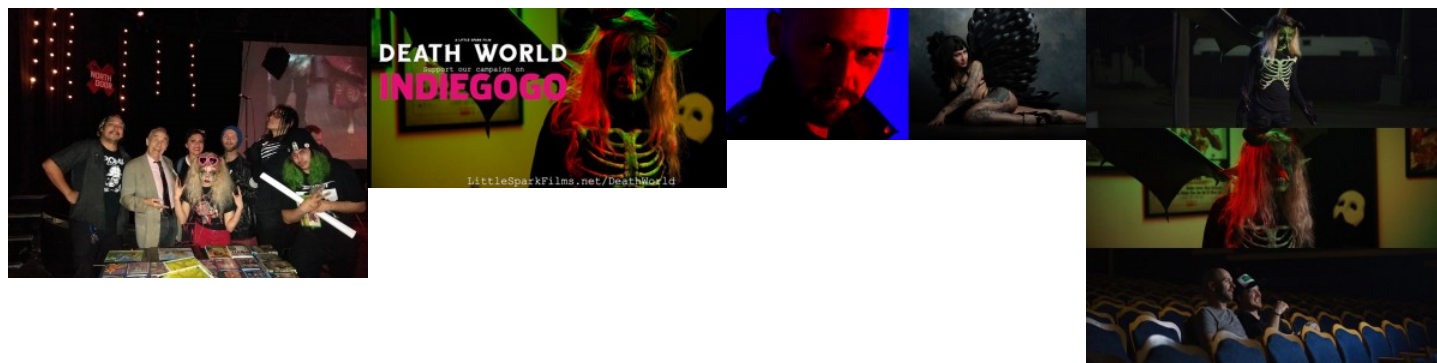

DEATH WORLD is a post-apocalyptic monster-mash, dark fantasy comedy about an unlikely anti-hero called upon to save humanity from a monstrous sentinel from another world. Told in the vein of *The Road Warrior*, *Escape from New York*, and *Psycho Goreman*, the story follows Gage, a reluctant and most unlikely anti-hero. Fate and some Machiavellian manipulation thrust Gage and his fellowship of misfits into a battle for the future of humankind against Khronos, a demonic warlord who searches for a device that will enslave humanity.

The campaign itself offers a plethora of great incentives for contributing including a pre-order of the official soundtrack to be written and performed by world-renowned industrial artist, ManifestiV. Perks include releases of the shooting script, sticker packs, postcards, official key art, screen-used props and wardrobe, videos specifically to you straight from the set, and a whole lot more. The campaign goal is set for \$111,000 and the team expects to begin shooting in August / September of 2023.

Currently streaming is the team's first cinematic endeavor, *The Torturer*. Available for SOD in over 90 countries on a wide variety of services such as Prime Video, Tubi, Plex, and Mometu. More of their work can be found on the TromaNOW streaming service where you can catch the audiobook *Make Your Own Damn Movie* produced and read by Catalina Querida, *Fantastico Disasterpiece Theater* (S1) directed by Joe Manco, and the entire run of their grindhouse showcase featuring all their short films as well as fake trailers before they upgraded to RED cinematic cameras.

About the Production Company:

Little Spark Films is an independent film collective from the Dallas – Fort Worth Metroplex of North Texas. The team has grown over the years blazing a trail of short films, music videos, and commercial ventures. They have been the heart of many productions in Texas, and most did not even know it.
