

Enhance Your Formulations with Ecuadorian Rainforest's Featured June Ingredients

Bulk Ingredients On Sale This Month

Clifton, New Jersey Jun 1, 2023 ([Issuewire.com](https://www.issuewire.com)) - Ecuadorian Rainforest, a leading supplier of premium botanical ingredients, is thrilled to unveil its exclusive June ingredient specials. This month, the company is showcasing a range of high-quality ingredients, including Aloe vera Powder, Flaxseed Powder, Green Tea Powder, Licorice Powder, and many more all available at competitive prices.

As a trusted B2B brand, Ecuadorian Rainforest is committed to providing its customers with top-notch botanical ingredients sourced from South America and other global regions. Each ingredient in the June specials is carefully selected for its exceptional quality and potential commercial applications across various industries.

Aloe vera Powder: Aloe vera has been recognized for its numerous health and wellness benefits. Ecuadorian Rainforest's Aloe vera Powder is derived from the succulent Aloe vera plant, known for its soothing and moisturizing properties. This versatile ingredient is highly sought after in the cosmetics and personal care industries, finding applications in skin care products, lotions, creams, and hair care formulations.

Flaxseed Powder: Flaxseed has gained popularity for its rich nutritional profile and potential health benefits. Ecuadorian Rainforest's Flaxseed Powder is derived from the seeds of the flax plant, which are known to be a great source of omega-3 fatty acids, dietary fiber, and antioxidants. With its nutty flavor and nutritional value, Flaxseed Powder is an ideal addition to bakery products, cereals, snack bars, and dietary supplements.

Green Tea Powder: Green tea has long been cherished for its refreshing taste and potential health benefits. Ecuadorian Rainforest offers premium quality Green Tea Powder, obtained from the leaves of the Camellia sinensis plant. Green Tea Powder is a versatile ingredient that can be incorporated into beverages, dietary supplements, confectionery, and skin care products due to its antioxidant properties and natural caffeine content.

Licorice Powder: Licorice has been widely used in traditional medicine and culinary applications for centuries. Ecuadorian Rainforest's Licorice Powder is derived from the roots of the Glycyrrhiza glabra plant, renowned for its natural sweetness and potential health benefits. This ingredient finds commercial

applications in the confectionery, beverage, and herbal supplement industries, adding flavor and natural sweetness to various formulations.

"We are delighted to present our June ingredient specials, featuring Aloe vera Powder, Flaxseed Powder, Green Tea Powder, Licorice Powder, and many others," said Vice President Steve Seigel for Ecuadorian Rainforest. "These ingredients offer exceptional value for our B2B customers in the cosmetic, food and beverage, and supplement industries, enabling them to create innovative and high-quality products to meet the demands of the market."

Ecuadorian Rainforest ensures that all its botanical ingredients are sustainably sourced and undergo rigorous quality control measures to meet the highest industry standards. With its commitment to customer satisfaction and exceptional product offerings, the company continues to be a preferred supplier for businesses seeking top-quality botanical ingredients.

Ecuadorian Rainforest has provided natural ingredients from South America and beyond for over 20 years. Founded by Marlene Siegel in 1997, the company now has over 1,000 fruit, herb, marine, spice, and vegetable ingredients all under one roof. Ecuadorian Rainforest puts its natural ingredients through rigorous quality-control processes to ensure they meet high-quality standards.
