India eVisa Application

New Delhi, Delhi Jun 1, 2023 ([Issuewire.com](https://www.issuewire.com)) - To enter India and stay there for even a day would require a valid passport and visa. However, starting with visiting the embassy multiple times, standing in line for a really long time, and getting a traditional paper visa is a lot of work. To eliminate the hassle, the Indian government has started a new visa program, where travelers can apply and obtain a visa online. This Indian e-Visa is now available for the citizens of Austria as the country was a launch member of this program. The **INDIAN VISA FOR AUSTRIAN CITIZENS** will be valid at airports and seaports only. Know more details at: <https://www.india-visa-online.org/indian-e-visa-eligibility/austrian-citizens/>.

To obtain the Indian e-Visa, only minimal documents are required. Starting with the requirements of a photo, a digital photo of the applicant will be requested, which should be taken with a digital camera or phone camera. Other than this, a scanned colored copy of the first biographical page of the applicant's passport within 3 MB is also required. An Indian visa can be obtained for three main purposes, which are: medical e-Visa, business e-Visa, and tourist e-Visa. One of these three purposes, the most popular one is the Indian Tourist e-Visa. To visit the state of one of the 7 wonders of the world, Agra, the closest international airport is the Indira Gandhi International Airport in Delhi (DEL). From there, travelers can travel to Agra by train or road.
