

Former New York City Police Union Boss Breaks Silence!

Tell All YouTube Podcast

Staten Island, New York Jul 1, 2023 ([IssueWire.com](https://www.issuewire.com)) - FORMER NEW YORK CITY POLICE UNION BOSS BREAKS SILENCE AFTER MORE THAN 20 YEARS IN TELL-ALL YOUTUBE PODCAST

Ron Reale, the former New York City Police Union Boss, emerges from obscurity to reveal the untold truth in a captivating YouTube podcast. After retiring from the NYPD in 1995 and enduring a shocking 21-year federal prison sentence, Reale defies his legacy by exposing corruption, federal indictments, and the dark secrets of New York City.

In an absolute must-watch event, Reale's gripping tale will take listeners on a revelatory podcast journey. Prepare to unravel the intricacies of his captivating story, as he sets the record straight and corrects the narrative surrounding his controversial past.

This highly-anticipated YouTube podcast marks Reale's long-awaited return to the public eye, more than two decades since his retirement from the NYPD and subsequent conviction. Reflecting on recent events involving subway vigilante Penny's indictment, Reale was motivated to speak out and correct the injustices he witnessed.

Expressing his admiration for Penny's heroic acts in protecting fellow subway riders from a mentally deranged passenger, Reale emphasizes the shameful treatment Penny received. Instead of being honored by the City of New York, Penny astonishingly received a "rap sheet" and an indictment instead of a well-deserved medal. Reale in his podcast blasts Reverend Al Sharpton as a coke dealing, FBI rat and snitch, and the catalyst behind the Tawiana Brawley kidnapping, and staged rape, where Reale says that Sharpton falsely accused the NYPD, and detective assigned to the case committed suicide.

Reale's newly launched YouTube podcast channel will serve as a platform to set the record straight. He will shed light on his journey, including the federal indictment orchestrated by then-Mayor Rudy Giuliani. Reale played a pivotal role in the 1995 merge of Transit, Police, and NYPD, staging demonstrations in front of City Hall to pressure Giuliani into implementing the merger. Giuliani succumbed to the widespread police protests and signed the Memorandum of Understanding (MOU). However, the day the MOU was signed, Reale retired from the NYPD and was met with a more than 40-count federal indictment, primarily charging racketeering 2 years following his retirement in 1997.

As the podcast unfolds, Reale reveals his personal background, growing up in foster care at the Angel Guardian Home. Surprisingly, he discovered that his birth father was a gangster associated with the Genovese crime family, a revelation that occurred after he had already become a police officer.

Listeners will be captivated by Reale's journey, including his acquittal of the majority of charges in the extensive indictment. Despite this, he was sentenced to a 21-year federal prison term, which was later reduced to seven years after Reale filed a motion with Federal Judge Deborah Batts. Reale's expertise as a paralegal since 1982 played a pivotal role in the successful motion, leading to the resentencing and granting of three days credit for every day served.

In a surprising turn of events, Judge Batts admitted in an affidavit filed on Reale's appeal to the Second Circuit Court of Appeals that she had erred in delivering the racketeering charge in her instructions to the jury. However, this affidavit was rejected by two appellate court judges, who disagreed with the

notion that a federal judge could make such an error. Chief Judge Oaks dissented, expressing his disbelief in the affirmation of Reale's conviction for conspiracy to commit racketeering.

Don't miss this groundbreaking YouTube podcast where Ron Reale, the former New York City Police Union Boss, finally breaks his silence, revealing a story that will challenge perceptions, rewrite history, and captivate audiences worldwide.
