**Shenzhen, Guangdong Aug 21, 2023 ([IssueWire.com](https://www.issuewire.com))** - FOSSiBOT, an innovative rising star in the smartphone field is bringing their new flagship rugged smartphone [FOSSiBOT F102](#) to sale officially. From August 21st to August 27th, the FOSSiBOT F102 world premiere will be ongoing on Aliexpress [FOSSiBOT Official Store](#). FOSSiBOT names the F102 as the Best Camping Flagship King as it comes with an ultra-bright **3W camping light**, flagship **108MP camera with 20MP night vision camera**, **6nm Helio G99 octa-core** processor, up to **20GB RAM+256GB ROM** and **16500mAh battery**. During the world premiere, users can get the F102 at the lowest price of \$169.99 with coupon codes. The price of \$169.99 is 500pcs limited, then the price will be \$179.99 before the promotion ends on August 27th. FOSSiBOT will also choose 10 users from purchases to offer free orders on F102.

## FOSSiBOT F102 Design & Appearance

[FOSSiBOT F102](#) is a 6.58-inch rugged smartphone with a waterfall design on the front top and the 32MP front camera is inserted in the waterdrop. The back cover design, according to FOSSiBOT engineers, is inspired by iron man, giving a sense of heroic spirit. FOSSiBOT F102 adopts a 6.58 inch 1080\*2408 FHD+ Sharp display and Dragon-trail glass cover for harsh environment use. The whole body offers a 20:9 aspect ratio, 120Hz refresh rate, and 84% screen-to-body ratio. With IP68/IP69K waterproof certification and the 4 corners specially strengthened, FOSSiBOT F102 is born for outdoor and harsh environment use.

In performance, [FOSSiBOT F102](#) sports the Mediatek Helio G99 octa-core processor with a 6nm process, a framework of 2\*Cortex -A76@2.2GHz and 6\*Cortex-A55@2.0GHz. Compared to the 12nm processor, the 6nm processor supplies users with high-speed powerful performance and lower power consumption. FOSSiBOT F102 also inserted internal memory of 12GB RAM and 256GB ROM with up to 8GB RAM expansion and 2TB TF card memory expansion supported. Together with Android TM 13 stock OS, offering flagship performance in daily life tasks and heavy tasks. For prolonging the standby and using time of the f102 smartphone, FOSSiBOT inserted a built-in 16500mAh battery and packs a 33W fast charger, allowing you to charge it to 90% in 3 hours and 100% in 4 hours.

FOSSiBOT specially optimized the camera to offer a flagship shooting experience. FOSSiBOT adopts a 108MP sensor for the main camera with a 1/1.52-inch sensing area. Together with F1.79 aperture and PDAF support, F102 offers an amazing shooting experience. The camera supports AI intelligent photography to recognize special scenes like night, daylight, portrait, building, text, dog, cat, flowers, beach, sunset, back-lighting, food & delights, mountain peak, etc.

The night vision camera comes with a Sony IMX350 sensor and offers 20-mega pixels. It shoots clear photos in dark scenes, the darker the environment is, the clearer it shoots. F102 also takes a 5MP Macro camera for vivid and detailed shooting and a 32MP Sony IMX616 sensor for front-facing selfies.
