

Introducing the next generation of marketing automation: Salezshark Connect+ AI empowers businesses for success

SALEZSHARK

Next Generation Marketing Automation

Cost Efficiency

Optimization of ROI

Personalization

Predictive Analytics

Delhi, India Jun 13, 2023 ([IssueWire.com](https://www.issuewire.com)) - Salezshark Pvt. Ltd.

Salezshark Private Limited introduced its data and marketing automation software, Connect+ AI (Artificial intelligence) to boost sales and increase growth on a large scale for all kinds of businesses.

We built this product so that businesses can use it to enhance the performance and efficiency of your services or products. It delivers and gives you access to the most useful informative data with the help of AI. Since AI is creating its own space in the world, it has proven very beneficial to businesses all over the world.

This is why Salezshark combined Connect+ with Artificial Intelligence (AI) to give the best sales database and marketing automation software to all businesses, be they small or big.

Other than offering top-notch databases, Connect+ also reduces the capital spent on marketing to reach a larger audience and create a bigger impact.

Features of Connect+ AI:

You can easily get started with Connect+ and it offers many features:

- You can *connect with potential customers and clients* through their email ids and also use ABM for sales and other marketing initiatives.
- You can also *sell more of your products with the usage of pre-designed templates* which would seem more personalized according to every client's needs and requirements. AI brings forth much better and higher-quality content which in turn makes Connect+ the best in the market.
- The workload gets lighter as Connect+ also tracks and manages that all the campaigns reach the right customers and checks the performance of campaigns using intelligent analytics.
- It generates leads so smartly that you will never run out of them. Connect+ uses landing pages, web forms, and other search tools to deliver leads consistently.
- It also manages the automated flow of emails and maintains a level of trust which results in more customer retention.

Connect+ is designed in such a way that it eliminates and reduces the work of employees and comes up with more creative solutions without spending too much time or capital. Other than Connect+, Salezshark Engage, a sales automation CRM, gives many advantages and manages leads, creates real-time statistics, and also protects your data and information. To know more, you can sign up at the official website www.salezshark.com, and learn all about Connect+ AI and other Salezshark services.
