

# Mainstreet™ Computers Partners with Glaziers Tool

## Revolutionizing Flat Glass Estimating with Cutting-Edge Technology and Expertise

**Belleville, Michigan Jun 28, 2023** ([IssueWire.com](https://www.issuewire.com)) - Mainstreet™ Computers, a leading glass point-of-sale solutions provider, announces its partnership with Glaziers Tool, an innovative app for precise flat glass estimating. Developed by Steven Albert, Sales Manager of S. Albert Glass, this collaboration addresses a critical need in the glass market. Steven Albert created Glaziers Tool five years ago as an efficient estimating solution. Recognizing its value in streamlining operations, S. Albert Glass has been utilizing and refining the app. Impressed by its capabilities, Mainstreet™ seized the opportunity to collaborate and introduce this groundbreaking app to a wider audience.

The Glaziers Tool app revolutionizes training and efficiency in the flat glass industry. Powered by an advanced Web APP, it collects and organizes detailed information and photos for replacements, repairs, and installations that can be sent to your vendors for accurate pricing.

"We are thrilled to announce our groundbreaking partnership with Glaziers Tool to launch the revolutionary app. This strategic alliance between their industry-leading glass expertise and our cutting-edge technology marks a significant milestone in the glazing industry. We are confident that our combined expertise will revolutionize the way glass services are delivered." said Michael Casella, President of Mainstreet™.

The launch of Glaziers Tool is scheduled for July 2023, marking a significant milestone in revolutionizing flat glass estimating for Mainstreet's valued customers.
