

PDH-Pro Achieves Board Approval as Certified Continuing Education Provider in New York, Solidifying Nationwide Reach

Wellesley, Massachusetts Jun 23, 2023 ([Issuewire.com](https://www.issuewire.com)) - PDH-Pro, a leading provider of comprehensive continuing education for engineers, is delighted to announce its recent board approval as a certified continuing education (CE) provider in the state of New York. This significant achievement marks a major milestone for PDH-Pro, as it now holds approvals as an authorized provider of engineering continuing education in every state that require pre-approvals and our courses are accepted in all 50 states .

The New York State Education Department's Board for Engineering, Land Surveying, and Geology has granted PDH-Pro the valued status of a certified CE provider. This approval highlights PDH-Pro's commitment to delivering exceptional educational experiences and reinforces its position as a trusted and reliable provider in the engineering education industry.

With this latest certification, engineers in New York can now benefit from PDH-Pro's extensive range of courses designed to enhance professional skills, foster career growth, and meet continuing education requirements. PDH-Pro's courses cover a diverse array of engineering disciplines, ensuring that engineers have access to relevant and up-to-date content aligned with industry best practices.

"We are pleased to announce our board approval as a certified continuing education provider in New York," said Libby Cresap, Product Manager at PDH-Pro. "This recognition reflects our dedication to delivering high-quality continuing education experiences that empower engineers to stay ahead in their fields and meet their professional development goals. We look forward to supporting engineers in New York on their journey of lifelong learning and success."

PDH-Pro remains committed to providing engineers with accessible and top-notch continuing education opportunities. Through a user-friendly online platform, engineers can conveniently access PDH-Pro's courses, which feature engaging content, board licensing requirement resources, and self-paced course options to optimize learning outcomes.

By achieving approval in all six states that require pre-approvals for engineering continuing education providers, PDH-Pro solidifies its standing as a premier provider of engineering education across the nation. The company's team of subject-matter experts and industry professionals ensures that PDH-Pro's courses are current, relevant, and tailored to meet the evolving needs of engineers.
