

Procolored Expands DTF Printer Product Line — Launches a New 13" Dual Heads DTF-PRO A3 DTF Printer

Pico Rivera, California Jun 15, 2023 ([IssueWire.com](https://www.issuewire.com)) - Procolored, a leading company in the inkjet printer industry, has announced the expansion of its DTF printer product line with the introduction of a new addition, the 13" Dual Heads DTF-PRO A3 DTF Printer. This latest offering is specifically targeted toward small to medium-sized business owners, particularly those in the print-on-demand t-shirt printing industry. The DTF-PRO A3 brings a combination of compact size and powerful printing capabilities to meet the diverse needs of these businesses.

Incredible Printing Efficiency and Compact Design

The standout feature of the 13" Dual Heads [DTF-PRO A3 DTF Printer](#) is its incredible printing efficiency, thanks to the dual print heads array. This advanced technology significantly boosts productivity, making it ideal for commercial use. With the ability to simultaneously print white and colour inks, the printer delivers stunning color gradients and precise details. The DTF-PRO A3 is designed to handle high-volume printing orders with ease, ensuring fast turnaround times and increased output.

Furthermore, Procolored has focused on optimizing the mechanical structure of the DTF-PRO A3 to create a more compact design. This reduction in size and weight allows for easier integration into existing workflows and saves valuable workspace. Business owners can now benefit from a smaller footprint without compromising on printing capabilities.

Innovative Technology for Enhanced Performance

Procolored has always been at the forefront of innovation, and the 13" Dual Heads DTF-PRO A3 DTF Printer is no exception. The printer incorporates Procolored's patented White Ink Auto Circulation technology, which ensures optimal performance and longevity of the printheads. This technology prevents printhead clogging and extends the printheads' lifespan by an impressive 50% compared to conventional DTF printers. Business owners can now enjoy uninterrupted printing operations, reducing maintenance costs and maximizing productivity.

A Valuable Addition to Procolored's DTF Printer Family

The 13" Dual Heads DTF-PRO A3 DTF Printer is a valuable addition to Procolored's existing [DTF printer family](#). Procolored offers a comprehensive range of DTF printers, covering various sizes from A4 to A3, including the popular A3+ size. The price range varies from \$2000 to \$5000, providing options that cater to different budget requirements. Additionally, customers can choose between single and dual print head variants, allowing for customization based on specific business needs.

Procolored: A Trusted Name in the Industry

With a strong reputation for delivering high-quality inkjet printers, [Procolored](#) has established itself as a trusted name in the industry. Their DTF printers, in particular, have gained widespread popularity and have become best-sellers in the United States. Business owners can rely on Procolored's expertise and dedication to providing top-notch printing solutions that meet their evolving needs.

In conclusion, Procolored's launch of the 13" Dual Heads DTF-PRO A3 DTF Printer marks a significant

milestone in the industry. This innovative product combines exceptional printing efficiency, a compact design, and advanced technology to empower small to medium-sized business owners, especially those in the print-on-demand t-shirt printing sector. With Procolored's commitment to excellence, the DTF-PRO A3 is set to make a lasting impact and revolutionize the way businesses approach DTF printing.
