

Rara Botbuz launches chatbot services just @ Rs 3,000/Month

Introducing the Revolutionary No Code AI Chatbot Services for Seamless Integration Across Multiple Platforms.

Rajkot, Gujarat Jun 26, 2023 ([Issuewire.com](https://www.issuewire.com)) - Rara Botbuz Pvt. Ltd. a startup based in [Rajkot, India], announced the launch of its no-code chatbot services for enterprises, businesses, and startups. The chatbots can be integrated with major messaging platforms like WhatsApp, Facebook Messenger, Instagram, Telegram, Viber, Line, and various Google Business Manager services.

With Rara Botbuz's no-code chatbot solution, businesses can easily set up and deploy AI-powered chatbots to automate customer communication across platforms. The chatbots understand natural language and can handle common queries like order status, product details, support issues, etc.

"We want to make our chatbots accessible to any business, no matter the size or technical expertise," said [Mr. Hemal Bavishi], CEO of Rara Botbuz Pvt. Ltd. "With our no-code chatbot solution, any business can deploy an intelligent virtual assistant to handle customer queries, generate leads and provide support at an affordable cost."

The key [features of Rara Botbuz's chatbot](#) solution include:

- **No coding required:** Intuitive drag-and-drop tools to build chatbots without any programming.
- **Multi-platform support:** Chatbots can be deployed on WhatsApp, Messenger, Instagram, Telegram, Viber, Line, and various Google Business Manager services.
- **Live chat:** With live chat businesses can provide real-time support to their customers for a smooth conversational experience.

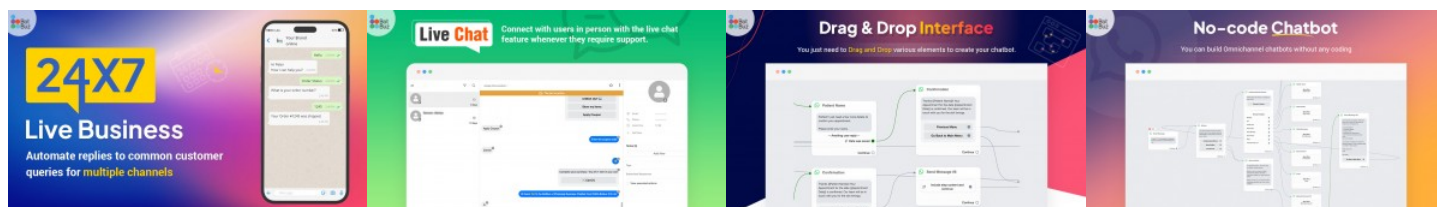

- **Integrations:** Chatbots can be integrated with CRM, payment gateways, e-mail marketing, data file and storage, and ecommerce platforms like Shopify, Zoho, etc. to access customer data.
- **Analytics:** Get insights into chatbot performance, user engagement, frequent questions, etc. to optimize the chatbot.
- **Broadcast:** Helps to send messages to multiple users at once for important updates, and announcements to communicate to a larger group of users.
- **Affordable and scalable:** We offer cost-effective plans that cater to startups, businesses, and enterprises. Easy to scale to multiple chatbots and messaging platforms.
