

Rivell announces Motorola Solutions Advanced Concealed Weapon Detection (CWD) Technology Partnership

Gloucester Township, New Jersey Jun 21, 2023 ([Issuewire.com](https://www.issuewire.com)) - Rivell, a renowned provider of cutting-edge security solutions, is excited to announce its collaboration with Motorola Solutions to introduce the latest Concealed Weapon Detection (CWD) technology. The advanced CWD technology, now accessible through Rivell's platform, aims to revolutionize security practices by offering enhanced threat detection capabilities.

As safety concerns continue to rise across various industries, organizations are seeking innovative solutions to mitigate potential risks effectively. Motorola Solutions, a global leader in mission-critical communications and analytics, has developed state-of-the-art CWD technology to address these pressing security needs.

Key Features and Benefits of Motorola Solutions' Advanced CWD Technology:

1. Enhanced Threat Detection:

Motorola Solutions' CWD technology leverages cutting-edge algorithms and sensor capabilities to provide accurate and reliable detection of concealed weapons. It can identify a wide range of potential threats, including firearms and bladed weapons, enabling security personnel to take proactive measures.

2. Real-Time Alerts and Analytics:

The CWD technology generates real-time alerts and comprehensive analytics, empowering security teams to respond swiftly and effectively to potential threats. This actionable intelligence enables better decision-making and enhances overall security operations.

3. Seamless Integration:

Rivell's platform offers seamless integration of Motorola Solutions' CWD technology into existing security infrastructures. This ensures a smooth deployment process and enables organizations to leverage their existing investments while upgrading their threat detection capabilities.

"We are thrilled to collaborate with Motorola Solutions in bringing their advanced Concealed Weapon Detection technology to our customers," said Ryan Laeys, Founder at Rivell. "This collaboration allows us to offer our clients a powerful solution that enhances their security posture, providing peace of mind and an added layer of protection."
