

Sparta Country Candles: 30+ Years of Handcrafted Fragrance Now Available Across Homes in Canada

Ontario's Most Beloved Family-Made Candle Brand Expands Its Collection With Unique Warmers, Refills & Signature Scents That Transform Every Home

Cambridge, Ontario Apr 17, 2026 ([Issuewire.com](https://www.issuewire.com)) - Since 1992, **Sparta Country Candles** has been doing something that no big-box brand can replicate — crafting genuine, strongly-scented, non-toxic candles with heart, honesty, and a passion for quality. Founded by Pat and Mary Muscat in the charming historic village of Sparta, Ontario, this family-run business has grown from a small gift shop into one of Canada's most trusted names in home fragrance.

What started as a simple desire to serve their community has turned into a movement. When customers kept asking for high-quality candles at honest prices, Pat and Mary answered the call — and in doing so, became the **first candle company in Canada to introduce the concept of refill candles**, a revolutionary idea that continues to save customers money while reducing waste.

A Candle for Every Corner of Your Home

The Sparta Country Candles collection is as diverse as it is aromatic. Whether you are looking for a classic **12oz jar candle** to anchor your living room or a set of **packaged tealight candles** to add a gentle glow to your dinner table, the range has something for every mood and every space.

For those who love unique décor with a bold edge, the **skull wax warmers** and **monster puck candles** bring personality and playfulness to any room. And for a cozy, rustic feel, the **rustic white candle warmer** remains a customer favourite — pairing beautifully with the brand's wide range of wax fragrances.

The beloved **Potpourri Hearts** line continues to delight customers looking for something sweet, soft, and distinctly Spartan in character.

Warmer Technology That Changes the Way You Experience Scent

Sparta Country Candles pioneered the **electric candle warmer** experience in Ontario, and that tradition continues with an expanded lineup of plugin warmers that make fragrance enjoyment safer, cleaner, and more versatile than ever. The **Canadian plugin warmer** is designed specifically for Canadian electrical standards, making it one of the most reliable and popular choices for households across the country.

With a tabletop or plugin warmer, customers can enjoy their favourite fragrances without an open flame — perfect for families with children or pets. Even better, leftover wax gets a second life through the brand's innovative **wax warmer refills**, so nothing goes to waste.

Sustainability Meets Scent — The Refill Revolution

Long before sustainability became a buzzword, Sparta Country Candles was practicing it. The brand's **candle wax refill** system allows customers to reuse their existing jars and warmers, simply topping them up with fresh, richly scented wax. The **12oz refill candles** are designed to fit perfectly into existing containers, making this one of the most eco-conscious candle experiences available in Canada.

The **candy dish refill candle** and **firestarter candle** further extend the brand's philosophy — that a good product should be both beautiful and practical.

100% Non-Toxic. 100% Canadian. 100% Quality.

Every product in the Sparta collection is made with **food-grade, non-GMO paraffin wax** — the same material used in everyday items like cheese wax and lip balm — manufactured to ISO 14001 environmental standards with zero detectable levels of benzene or toluene. The cotton-core wicks ensure a clean, consistent burn every time.

The wax is specifically blended to burn cleanly in homes, containing up to three times more scent than average candles [Spartacandles](#), all offered at prices that respect the customer.

Visit the Store or Shop Online

The Sparta Country Candles store at **46361 Sparta Line, Sparta, Ontario** is open **7 days a week, 11am to 5pm**, and features two floors packed with candles, unique home décor, seasonal gifts, and accessories.
