

V. Swetha E. Jeganathan, MBBS, MPhil (Ophthal), MAppMgt (Health), MRCS (Ophthal), CCRP - Global Ophthalmologist

Get to know Dr. V. Swetha E. Jeganathan from Ann Arbor, Michigan.

New York City, New York Jun 5, 2023 ([Issuewire.com](https://www.issuewire.com)) - Dr. Jeganathan is a highly trained doctor with an impressive global curriculum vitae on ophthalmology experience in Australia, Singapore, Ireland, United Kingdom and the USA. A committed clinician-scientist in the field of ophthalmology, she dedicated her career to the discovery and development of innovative treatment products, minimally invasive surgery and in the pursuit of electronic health (eHealth) technologies to improve health care

delivery. To this end, she has recently joined Alcon as Specialist in Ophthalmology.

Dr, Jeganathan's academic career has been exemplary. She graduated with her medical degree from the Monash University Faculty of Medicine in Australia in 2001, and received her Master of Philosophy degree in Ophthalmology from the University of Melbourne, as well as her Master of Applied Management degree from the University of Newcastle in Australia. She subsequently attained her MRCS in Ophthalmology from the Royal College of Physicians and Surgeons of Glasgow as well a Postgraduate Diploma in Cataract and Refractive Surgery from Ulster University in the United Kingdom.

Having completed her postdoctoral training in ophthalmology and biomedical engineering at the prestigious University of Michigan, Dr. Jeganathan possesses a unique blend of expertise that spans the realms of medical science and technology. This multidisciplinary background empowers her to explore novel approaches to improving patient outcomes and enhancing the overall quality of eye care.

Leadership, cross-functional collaboration, and effective communication are among the doctor's key strengths. Her ability to inspire and motivate others, combined with her innate talent for fostering interdisciplinary partnerships, has enabled her to drive impactful change within her field. By fostering a collaborative environment, she facilitates the exchange of ideas and encourages the cross-pollination of expertise, ultimately fostering breakthroughs in eye care that benefit patients worldwide.

In addition to his global research endeavors, Dr. Jeganathan remains deeply committed to addressing the unmet needs of underserved communities both within the United States and in low and middle-income countries. Recognizing the stark disparities in eye care access, she has dedicated her efforts to bridging this gap, ensuring that all individuals, regardless of their socioeconomic status, have access to quality eye care services.

As a testament to her dedication, she currently holds an associate faculty position for the GlobalReach program at the University of Michigan, allowing her to actively contribute to delivering eye care to those who need it most.

Ophthalmology is a branch of medicine and surgery, which deals with the diagnosis and treatment of eye disorders. Ophthalmologists are experts in the diseases, functions, and anatomy of the eye. Most ophthalmologists are also surgeons, who may perform cataract, glaucoma, or corneal surgery, or repair traumatic injuries to the eye.
