

Dr. Brian Fiani, Michigan's Best Neurosurgeon

Get to know Neurosurgeon Dr. Brian Fiani, who serves patients in Michigan.

New York City, New York Jul 13, 2023 ([Issuewire.com](https://www.issuewire.com)) - Dr. Fiani is a skilled neurosurgeon known for his expertise in minimally-invasive and complex spinal surgery. He is currently affiliated with Mendelson Kornblum Orthopedics and Spine Specialists in Michigan. His clinical interests include degenerative spine surgery, brain and spinal tumors, performing neurosurgical spine surgeries, and managing neurotrauma cases. His broad range of expertise encompasses various conditions, including spinal cord tumors, cervical radiculopathy, lumbar radiculopathy, traumatic brain injuries, and brain

tumors.

Before embarking on his professional journey, he completed his undergraduate studies at the University of Michigan and earned his medical degree from Michigan State University. Following this, he completed rigorous residency training at Desert Regional Medical Center, honing his expertise in neurosurgery. Furthermore, he sub-specialized in minimally invasive spine surgery through a prestigious fellowship at Cornell University's Weill Cornell Medical Center and New York-Presbyterian Hospital. As the top authority in his field, the doctor is Board-Certified in Neurosurgery.

Beyond his clinical work, he actively contributes to the medical field through leadership roles and committee memberships. He serves on the American Osteopathic Association's Board of Trustees and holds the position of Vice Chair of the Bureau of Emerging Leaders. He is also involved with organizations such as the North American Spine Society, the American College of Osteopathic Surgeons, the American Association of Neurological Surgeons, and the Congress of Neurological Surgeons, among others.

With an extensive research background, Dr. Fiani has made significant contributions to the field of neurosurgery. He has authored more than 120 peer-reviewed publications, demonstrating his expertise and sharing his insights with the medical community. Additionally, he has authored a leading textbook, solidifying his position as an authority in the field. Dr. Fiani's commitment to advancing medical knowledge is further highlighted by his possession of several medical technology patents.

Recognized for his expertise, Dr. Fiani has been invited to speak at numerous national and regional conferences dedicated to neurosurgery. His insights and expertise have been invaluable to these gatherings, where he shares his knowledge and collaborates with other leading professionals in the field. Dr. Fiani's commitment to excellence is also evident in his participation on leadership committees for several international spine organizations, where he helps shape the future of spinal surgery.

Actively contributing to the medical community, he is an editor and peer reviewer for two dozen medical journals. His keen eye for detail and vast knowledge make him a trusted resource in ensuring the accuracy and quality of scientific publications. He also believes in educating the public about neurosurgery and related healthcare topics. He serves as a media correspondent and columnist, leveraging his expertise to provide valuable insights to a broader audience. He is soon set to launch a regular podcast, further expanding his reach and offering a platform for educating and engaging with listeners.

Neurosurgery is the medical specialty concerned with the prevention, diagnosis, surgical treatment, and rehabilitation of disorders which affect any portion of the nervous system including the brain, spine, spinal cord, peripheral nerves, and cerebrovascular system. Neurosurgeons are doctors who diagnose and treat problems with the nervous system, often by performing surgery on the brain or spine. They treat strokes, tumors, spinal disc disease, infections, and head or spinal cord injuries.

As a testament to his success, Dr. Fiani has received numerous awards and honors, including recognition as a top neurosurgeon by Best in Michigan Magazine and Who's Who Magazine. He has also been the recipient of scholarships and institutional awards for his contributions to research and innovation.

In his free time, he enjoys various outdoor activities, including golf, tennis, boating, and watersports.
