

DRAINBOWS set to release new manga series

Check out new music and manga.

Las Vegas, Nevada Jul 21, 2023 ([Issuewire.com](https://www.issuewire.com)) - MisivDrainbows is finding a new path in the manga category. The band will be releasing a Manga in 2023 about a futuristic punk that has new technology and allows him to take on his enemies with ease. The main character's name is Mickey like the band in real life. The manga displays the struggles within the band. The art, lyrics, and conceptualization prove that Drainbows is in their own creative realm. The band has released two albums so far named Telepathetic and 14 Virgins. The album will be met with a new release plan. DRAINBOWS will be releasing their music in sections. Four at a time. You can listen and read along to the music.

The band proved their resistance to the government not only lyrically, but physically. "They flew over our practice space, gigs, and homes. We were locked on a battlefield so to speak."

The band experimented with conceptual living around 2013 and has continued as a band with an interactive experience. People who listen to the music are known as "the Family." They usually support whatever the band is doing. "We have deliberate targets, some politicians, others are trying to avenge us from mass shooting massacres and religion." The band was receiving odd treatment from the U.S. government. They will continue their anarchy and open their minds to what is the new age. "I got tired of hearing music that was washed out and psyche. So we are doing something different. Sort of post-psyche." The band will perform in August on the 5th and the 7th in California. AUGUST 5TH is at the Game Room in Sonora, CA. The other is at The Vine in Long Beach on the 7th with Shaki Tavi and Chad Carrier. "We build ourselves not other people," Mickey claims.
