

DRS Softech is Delighted to Announce the Launch of OST to PST Converter

DRS Softech launched the reliable OST to PST Converter Tool to make the conversion of OST files easy and secure in less time.

San Jose, California Jul 4, 2023 ([Issuewire.com](https://www.issuewire.com)) - DRSSoftech, a renowned name among IT services, has recently launched a new tool [OST to PST Converter](#). This is an advanced tool to facilitate users to convert OST files to PST and many other file formats. It will be an excellent utility among the users for its exclusive features.

DRSSoftech is a trusted and one of the best IT companies, that prominently deals with Data Recovery, Email Migration, Database Recovery, and PDF management. These services ease the workload of users and help them migrate data efficiently. We are glad to add one more innovative utility, OST to PST Converter, to our Email Migration category. This product is a perfect solution to convert and migrate OST files with a few simple steps. The tool is fast as well as secure, which will not only maintain your data integrity but also ensure data security while migrating. It will enable users to transfer OST data to various file formats and different email clients. Moreover, this tool is designed with a simple user interface that will help user to operate the tool with ease, without any technical help.

Peculiar Features of DRS Softech OST to PST Converter

The tool is equipped with many advanced features which make it an incomparable tool. Some of them are:

- Convert OST files to different file formats such as PST, PDF, MBOX, EML, EMLX, CSV, etc.
- It enables users to migrate OST files to different email providers such as Office 365, AOL, Thunderbird, Gmail, Yahoo Mail, etc.
- Allows multiple OST file selections and migration simultaneously.
- It has a Remove Duplicate Mails option to exclude duplicate items from the mailbox based on Subject, Body, To, From, and BCC.
- Also, it provides an option to back up emails without attachments and allows users to save attachments separately in PDF files.
- And exclusively, you can apply Date Range Filter to migrate or backup according to the preferred date range.

These are the prominent features of the tool. There are many other features such as showing a preview of the mailbox, Split Resultant PST, etc.
