ENHANCING LIVES WITH **AUSTRALIAN NATIONAL CARE**

PREMIUM **NDIS DOWN SYNDROME CARE** IN SYDNEY

Sydney, New South Wales Jul 11, 2023 ([Issuewire.com](https://www.issuewire.com)) - July 07, 2023 — Australian National Care (ANC) is happy to share its premium NDIS Down Syndrome Care services in Sydney. Designed to improve the lives of individuals with Down syndrome, the [ANC NDIS Down Syndrome support](#) aims to provide comprehensive support, empowering individuals to live and achieve their goals.

The NDIS has been instrumental in transforming the landscape of disability care in Australia. The ANC recognises the unique challenges of individuals with Down syndrome and has developed tailored programs to meet their needs. With a strong commitment to promoting independence, inclusion, and well-being, Australian National Care NDIS Down Syndrome Care offers a holistic approach to support and empower individuals in Sydney.

A team of highly skilled and compassionate ANC staff, including disability support workers, allied health professionals, and care coordinators, work together to deliver a personalised care plan. Australian National Care NDIS Down Syndrome Care is designed to meet the needs of individuals with Down syndrome, including health and wellness and employment, social inclusion, and community engagement.

"We are thrilled to introduce our premium NDIS Down Syndrome Care in Sydney," said Abeer Murgus, CEO of Australian National Care. "At the ANC, we firmly believe that every person can do it, and our goal is to ensure that individuals with Down syndrome receive the high level of care and support they deserve. Through our NDIS services, we aim to support their lives have improved and personal growth and development."

ANC's NDIS Down Syndrome Care services encompass a wide range of support options, including but not limited to:

Personalised care planning: ANC's dedicated care coordinators collaborate with individuals, their families, and support networks to develop customised care plans, ensuring that every aspect of their needs is considered.

Assistance with daily living: ANC's disability support workers provide one-on-one support to individuals with Down Syndrome, assisting them with everyday tasks, personal care, and household chores.

Allied health services: ANC's team of allied health practitioners, including occupational therapists, speech therapists, and psychologists, offer specialised therapies to improve communication skills, cognitive abilities, motor skills, and overall well-being.

Skill development and training: ANC offers a range of skill development programs and training opportunities to enhance independence and equip individuals with Down Syndrome with the necessary tools for success in education, employment, and community engagement.

Social and recreational activities: ANC promotes social inclusion by organising various community-based activities, outings, and events, fostering connections and friendships among individuals with Down Syndrome.

ANC's commitment to delivering high-quality care extends beyond the services themselves. The organisation ensures a seamless and hassle-free experience by providing ongoing support, regular assessments, and collaborative care coordination, ensuring individuals receive the most effective and efficient care possible.
