

Fortified X is redefining the modus of centralized and decentralized cryptocurrency exchange operations

The logo for Fortified X features the word "FORTIFIED" in a white, uppercase, sans-serif font at the top. Below it is a large, white, stylized letter "X" that has a hand-drawn, brush-stroke appearance with some texture and irregular edges. The entire logo is centered on a solid black background.

Edgbaston, Birmingham Jul 28, 2023 ([Issuewire.com](https://www.issuewire.com)) - Fortified Assets Xchange also called **Fortified X** is a hybrid cryptocurrency exchange project set to redefine the modus of centralized exchange operations by incorporating the features of both centralized and decentralized exchange operations whilst staying at the cutting edge of technology to innovate and implement solutions to deliver improved investors' confidence and better user satisfaction.

We know that centralized and decentralized exchange operations have their drawbacks. Therefore, with our hybrid exchange solution, we aim to address the problems plaguing both exchanges today by blending and modifying their features to power the future of decentralized finance with a difference.

Hence, we have a bold vision of transforming the view of cryptocurrency globally through the credibility and transparency of our hybrid exchange operations for the wider adoption of decentralized finance. Therefore, we intend to achieve this vision by delivering a robust, innovative, reliable, safe, user-friendly, scalable exchange platform with significant consideration for regulation and improved risk management

to further trust in users and investors.

We are building a strong team and are working with industry experts in blockchain, security and operations to deliver our solutions and vision for the future.
