

iGrow News Launches Market Research Division

iGrow *News*

Dover, Delaware Jul 24, 2023 ([IssueWire.com](https://www.issuewire.com)) - iGrow News, [a well-known news platform that covers various industries within the agriculture technology sector](#), is proud to announce the launch of its brand-new Market Research Division. This division offers customized market research services that cater to the specific needs and challenges of each client. By utilizing its extensive database, iGrow News aims to provide unparalleled insights across various sectors such as Controlled Environment Agriculture (including Indoor Farming, Vertical Farming, Greenhouses, and Container Farming), Robotics & AI in Agriculture, Crop Nutrition, Crop Protection, Agriculture Machinery & Equipment, Farm Management Software, and Sensors & IoT in Agriculture.

In today's data-driven world, iGrow News' decision to launch this division shows their ongoing commitment to serving their clients' ever-changing needs. "Our goal has always been to provide relevant news and information to our audience. With this new division, we are taking it to the next level by delivering actionable insights that are based on a thorough analysis of our vast industry data. This move positions us as a news platform and a strategic partner for businesses," says [Sepehr A. Achard](#), CEO of iGrow News.

The Market Research Division will utilize the latest techniques and methodologies in data analysis to provide clients with actionable market insights, detailed reports, and strategic recommendations. This will equip clients with the knowledge they need to make informed decisions and stay ahead in their respective markets.

iGrow News welcomes all interested parties who require customized market research services to contact them and explore how this new initiative can meet their unique requirements.
