

Inaugural InvestDR Mastermind Series I to Empower Investors in Santo Domingo

Distrito Nacional, Dominican Republic Jul 15, 2023 ([IssueWire.com](https://www.issuewire.com)) - In a pioneering move, Retire & Invest DR is thrilled to announce its first-ever InvestDR Mastermind Series I event, to be hosted in Santo Domingo, Dominican Republic, this August.

Founded by the innovative Maria Abreu, the driving force behind Retire & Invest DR and CEO of Abreu & Associates law firm, this landmark event is designed to provide both local and international investors with opportunities to diversify and strengthen their portfolios by investing in the Dominican Republic.

Participants will benefit from personalized and exclusive interactions with prominent experts, including real estate developers, business owners, attorneys, bankers, and rental property managers, with proven experience in doing business in the DR.

This two-day event, scheduled for August 25-26 at the Crowne Plaza Santo Domingo in the historic Colonial district, has two primary goals. First, it aims to enrich investors, entrepreneurs, and business owners with knowledge and networking opportunities in the DR. Second, to offer attendees unique access to premier deals and prime investment opportunities.

The panel of experts will navigate the intricacies of investment in the DR, covering legal, tax, logistical, and practical aspects. They will be available to address any questions and provide insight into the diverse investment opportunities, ranging from retail and real estate to business acquisitions and venture capital funds.

The timing couldn't be better. The DR is witnessing a significant economic upswing, with projected GDP growth of 4.4% in 2023 and 5% in 2024. Furthermore, the country is riding a tourism wave, welcoming over 5.3 million visitors in the first half of 2023 alone. The United Nations World Tourism Organization (UNWTO) lauded the Dominican Republic as the leading country in tourism recovery post-Covid and identified it as a prime destination for foreign investment.

The Invest DR Mastermind Series is the perfect springboard for investors eager to explore the DR's vibrant economic landscape and gain invaluable advice and insights on doing business in the DR from seasoned professionals with on-the-ground experience.

The Invest DR Mastermind Series is the perfect springboard for investors eager to explore the DR's vibrant economic landscape and gain invaluable advice and insights on investing in real estate and doing business in the DR from seasoned professionals with on-the-ground experience.
