

Indibike Introduces Revolutionary Electric Scooters: Indibike Plus and Indibike

The next generation, best-in-class two-wheelers that address the nation's ever-rising fuel costs and carbon emissions.

Bengaluru, Karnataka Jul 7, 2023 ([Issuewire.com](https://www.issuewire.com)) - Indibike, an emerging two-wheeler brand, is proud to announce the launch of its highly anticipated electric scooters - Indibike Plus and Indibike.

With a vision to provide eco-friendly and efficient mobility solutions, Indibike is taking a leap forward in the electric vehicle market with these cutting-edge scooters.

Indibike Plus and Indibike combine advanced technology, sleek design, and unparalleled performance to offer an unmatched riding experience. These electric scooters are set to revolutionise urban commuting and contribute to a greener future! Indibike's commitment to sustainability and innovation shines through every aspect of these exceptional vehicles.

Key features of Indibike Plus and Indibike:

Swappable Batteries:

Indibike comes with a swappable battery feature wherein instead of waiting for the battery to recharge,

users have the option to remove their discharged battery and exchange it for a pre-charged one or charge it in their private space

FAT Tyres:

Only bike in India, to offer the FAT tyre feature! These tyres not only enhance the visual appeal of the vehicles but also offer a range of advantages, including improved stability and traction.

Smart Utility Footboard:

Indibike offers maximum carriage space which ensures ample space for your feet and to carry your daily essentials

Dual Element Headlight

The Brightest Dual Element Headlights offer excellent visibility, and the Triple Tree Suspension adds to the scooter's superior handling

Indibike invites customers to experience the future of urban mobility firsthand! Interested individuals can visit the Indibike website, book a [test ride](#) and witness the incredible performance and features of Indibike Plus and Indibike.
