### About Metro One Loss Prevention Services Group

Founded in 1984, Metro One is one of the largest privately-owned security companies in the US.

### Supply Chain Security Program

Metro One LPSG has significant expertise working in the supply chain, distribution, and warehouse environments. Almost all Metro One LPSG clients are part of the logistical sequencing known as “total supply chain.” Our role is to enhance efforts to protect assets, elevate safety and health, and minimize risk (loss). We do this at truck gates, key access points such as lobby greeting stations, tour locations across the facility footprint, and in some cases, at adjacent storage and temporary lots. Some of our other logistics clients are big box stores, with a nationwide network of DCs and warehouses. Others are international retailers, such as booksellers, clothiers, or warehouse club brands.
