

Ivinex UUE Achieves AWS FTR Approval and is now Available in AWS Marketplace for Enhanced Data Security and Compliance

Bountiful, Utah Jul 29, 2023 ([Issuewire.com](https://www.issuewire.com)) - Ivinex UUE Achieves AWS FTR Approval and is now Available in AWS Marketplace for Enhanced Data Security and Compliance

Ivinex, a leading provider of innovative cloud-based solutions, is pleased to announce that it has successfully completed the AWS Foundational Technical Review (FTR) from Amazon Web Services (AWS) for Ivinex UUE, its flagship product, and is now listed in AWS Marketplace. This significant achievement highlights Ivinex's commitment to delivering exceptional security and compliance measures to users worldwide.

Ivinex UUE is a cutting-edge cloud-based SaaS platform available in AWS Marketplace that is designed to transform lead management, support tickets, and CRM data access. Featuring the advanced Script Pop technology, users can seamlessly access real-time customer data during interactions, elevating the user experience. The platform offers a comprehensive suite of software solutions for diverse markets, including contact centers, CRM, user interface enhancements, and API integration.

One of the standout aspects of Ivinex UUE is its seamless integration with various communication providers and platforms. This integration empowers users to access data and communicate without the need to switch between multiple accounts or applications, streamlining workflows and boosting productivity.

With the completion of the AWS FTR and its listing in AWS Marketplace, Ivinex UUE provides users worldwide with enhanced data security and compliance. The AWS FTR validates that Ivinex has implemented robust security controls and adheres to industry best practices established by AWS. Users can confidently leverage Ivinex UUE listed in AWS Marketplace to manage and safeguard their sensitive data within a highly secure cloud environment.

"We are thrilled to complete the AWS FTR for Ivinex UUE and have it listed in AWS Marketplace," said Derek Miner, CEO of Ivinex. "This achievement underscores our unwavering commitment to providing users worldwide with the highest level of data security and compliance. With AWS FTR completion and the AWS Marketplace listing, we solidify our position as a trusted partner, empowering our clients to thrive in a rapidly evolving digital landscape."

By leveraging the power of AWS, Ivinex UUE offers scalable and resilient infrastructure, allowing users

to optimize their operations while upholding stringent data protection standards. Completion of the AWS FTR and listing in AWS Marketplace further reinforce Ivinex UAE's compliance with regulatory requirements and adherence to industry standards.
