

Leawo Mid-Year Sales 2023 – 50% OFF PhotoIns for AI Photo Enhancement, Photo BG Removal, Photo Enlargement, and More

Leawo Software recently announced their 2023 Mid-Year Sales. Until August 15, 2023, shoppers can seek 50% discount on Leawo PhotoIns and other up to 90% off bundles.

Shenzhen, Guangdong Jul 31, 2023 ([Issuewire.com](https://www.Issuewire.com)) - Buying at the best price comes down to timing. By knowing when seasonal items might be on sale and when big sales are happening, you can buy exactly what you want, but for a lot less. To offer people a variety of software in great deals, Leawo Software, a leading developer and supplier specializing in multimedia solutions and data management software, is thrilled to announce their [2023 Mid-Year Sales event](#). Running until August 15, 2023, this promotion offers customers the opportunity to enjoy significant discounts on a range of top-quality software.

The highlight of the sale is the unmissable 50% discount on Leawo PhotoIns, a comprehensive 3-in-1 photo solution package that includes [Photo Enhancer](#), [Photo BG Remover](#), and [Photo Enlarger](#). It is able to automatically [enhance photo quality](#), remove and change photo backgrounds, enlarge photos by up to 40X, and more. Originally priced at \$109.95, customers can now purchase this power-packed bundle for only \$54.97. For those interested in individual modules, there is also a mega 40% discount available.

- Leawo Photo Enhancer utilizes artificial intelligence technology to improve the quality of photos in bulk, eliminating the need for manual intervention. This powerful tool can enhance portraits by retouching skin, removing freckles, enhancing eyes, adjusting lighting, and more. When used for landscapes, it can fix exposure issues, correct white balance, enhance the sky, optimize colors, remove haziness, and sharpen edges. It can also address lens-related problems such as distortion, chromatic aberration, and vignetting when working with RAW images. For JPG images, it can reduce noise, fix blur, and enhance details, resulting in improved visuals.
- With the help of a smart algorithm, Leawo Photo BG Remover offers a convenient solution for batch background removal. This program automatically analyzes the edges of the subject in loaded photos, encloses the region to be cut out, and removes the background without compromising quality or size. Even the most intricate hair and fur details can be accurately separated from the background. Additionally, the manual mode allows for more precise background removal, catering to the needs of most users. After isolating the foreground on a transparent background, it becomes effortless to apply the photo to any desired background or solid color. Furthermore, various effects like blurring, coloring, and adding shadows can be applied to both the foreground and background.
- Leawo Photo Enlarger employs advanced AI technology to upscale photos in bulk by increasing their resolution rather than simply enlarging pixels. This results in enhanced color rendering, reduced artifacts, and improved texture details. Whether the images are upscaled by 2x, 4x, 8x, or even 40x, the clarity and sharpness of the images will be maintained. Moreover, the software also allows for downscaling images to 0.5x. It effectively removes noise and mist from photos, resulting in clearer and more natural-looking upsized images. Additionally, it optimizes contrast, sharpness, and brightness to enhance photo quality. All adjustments can be made automatically or manually, and with the aid of hardware acceleration, the batch processing speed is significantly accelerated, up to 5 times faster.

Leawo Software is renowned for its innovative and user-friendly software solutions, and this Mid-Year Sales event showcases the company's commitment to providing affordable and high-quality products to its loyal customer base. In addition to the enticing discount on Leawo PhotoIns, customers can also take advantage of other exciting offers. For example, 91% off the 4-in-1 iOS Package, 91% off [CleverGet All-in-One 11 Online Video Solution](#), 70% off All-in-One Bundle, 30% off sitewide coupon, Tunes Cleaner freebie, and more.
