New York City, New York Aug 3, 2023 ([Issuewire.com](https://www.issuewire.com)) - Society is currently crumbling and a strong change is immediately needed to transform the way of life and its quality. Focusing on this need, author Michael Draper Jr. has published a brand new book titled 'The 7 Trumpets A Wave that Changed the World'. The chapters of this book focus on social science and talk about different ways of changes that can be brought into this world and the different governments can easily implement them to improve everything. The new international version of the book is now available on Amazon, both in Kindle and paperback versions. There are a total of 31 chapters in the book that talks about changes that can be brought into the world, improving the quality of life and society immediately.

The story starts with a person named Oya who has suffered so much in her life and saw her loved ones being harmed and pained. The book revolves around the fifth angel and he sounding his trumpet when the protagonist witnesses a star falling from the sky. The star was then given the key to the shaft of the Abyss which opened with a huge smoke. The smoke also carried locusts to come down to earth and

torture people who did not have the seal of God on their foreheads. The story further tells how for five continuous months suffered the agony and how they, unable to bear the torture further will seek death but will not find it.

The story in 'The 7 Trumpets A Wave that Changed the World Kindle Edition' goes into complete detail about how these locusts will look once the fall of the fifth angel is done. The author describes the locusts will look like horses prepared for battle with human faces and hairs of women. With their tails like scorpions, their power to torment people for five months stayed strong as their king whose name in Hebrew is Abaddon and in Greek is Apollyon (that is, Destroyer) watched over them. Michael Draper Jr. then writes about the sixth angel after explaining how the first woe is past, but the two other woes are yet to come.

In the book, the author writes he heard the voice of the sixth angel who also had the trumpet. In an attempt to kill a third of mankind, the killer horses whose heads resembled the heads of lions rode down to the earth with fire, smoke, and sulfur coming out of their mouths. According to the story, bearing dangerous plagues, these horses took out a third of humankind on the planet. But it still did not stop humans from worshipping demons, and idols of gold, silver, bronze, stone, and wood or make them repent their murders, sexual immorality, or their theft. The author explains how these were the real problems in society, and if not reduced can bring in even more dangerous plagues that can wipe out the entirety of mankind.
