

New health facility in Queensland opening - to play a key role in expanding hospital capacity

Q-Bital Healthcare Solutions facility opening 6th July, media invited to cover opening and tour new facilities

Brisbane, Queensland Jul 6, 2023 ([IssueWire.com](https://www.issuewire.com)) - ELECTIVE SURGERY WAITING LIST A 'HORROR FIGURE'. NEW NORTHGATE FACILITY TO PLAY A KEY ROLE IN EXPANDING HOSPITAL CAPACITY THANKS TO Q-BITAL HEALTHCARE SOLUTIONS

[Q-bital Healthcare Solutions](https://www.issuewire.com) a leading global provider of mobile, modular and mixed-modality healthcare spaces, is opening its first Australian premises. With the opening of the Northgate facility, Q-bital will now be able to design, build and maintain a local Australian fleet, purpose-built to meet the specific requirements of Australia's climate, compliance and certification standards.

Q-bital's versatile healthcare spaces have the potential to significantly increase Australia's hospital capacity. Many Australian hospitals have already reduced elective surgery backlogs using mobile or modular facilities supplied by Q-bital, including The Prince Charles Hospital, Toowoomba Hospital and Redcliffe Hospital.

The new facility will further deliver a number of local jobs throughout the supply chain, in heavy steel frame manufacturing, shopfitting and specialist services such as medical electrics, medical gasfitting and medical air-conditioning/air filtering.

The media are invited to attend a ribbon-cutting event and presentation to officially open the new facility. Notable guests include Councillor Adam Allan, Hon Lachlan Millar MP and Q-bital Healthcare Solutions' CEO, Mr Chris Blackwell-Frost, along with representatives from Q-bital Healthcare Solutions.
